Special Dispatch to the New-York Times.

WASHINGTON, Sunday, Oct. 18.

Washington has been filled with rumors and excitements throughout the day.

Belief in the progress of a great battle within eighteen miles of the city was very general, but no engagement has taken place.

The rebel guerrillas are prosecuting an active campaign between MEADE's army and Washington. This morning several officers, attached to Gen. SEDGWICK's headquarters, were captured by guerrillas concealed in the woods near Chantilly.

This afternoon a party of our men were met by some rebels this side of Fairfax Court-house, and attacked, with a loss on our side of two wounded, and a Captain, whose horse was killed under him, taken prisoner. Those who escaped, meeting a paymaster close by with over one hundred thousand dollars, told him the story, and he quickly retraced his steps. A supply train was also interfered with.

DISPATCHES TO THE ASSOCIATED PRESS.

WASHINGTON, Sunday, Oct. 18.

It is reported that Gen. MEADE's army is within the defences of Washington.

There has been no battle, and the exact position of LEE's army is unascertained, or at least is not known in this city. It appears certain, however, that LEE has not crossed the Potomac.

The information received to-night is to the effect that reports came in from our cavalry yesterday evening that the enemy had massed a force at Manassas.

There were vague reports that the enemy was straitened for supplies, and, having signally failed to secure them from Gen. MEADE, has again turned his attention and face toward the Lower Shenandoah Valley, and to our posts on the Baltimore and Ohio Railroad. Trusty parties have been sent out to ascertain the truth of these reports.

Rebel infantry pickets made their appearance last night in the vicinity of Chantilly, which indicates the presence of a heavy rebel force in that vicinity. But Gen. SEDGWICK drove them back to Frying Pan from his front.

Gen. COCHRANE visited the camp yesterday.

Later information up to noon to-day says our cavalry reconnoisance went out as far as one mile from Bristow and found nothing but a few rebel cavalry scouts.

Rumors continued to multiply to the effect that a rebel column was moving toward Point of Rocks or Harper's Ferry. But after careful inquiry by private parties, no information has been obtained to confirm those reports.

The following was to-day received at the headquarters of the army in this city:

CLARKSBURGH, Saturday, Oct. 17.

Gen. SULLIVAN reports that his cavalry scout from Martinsburgh yesterday encountered a detachment of GILLMORE's rebel cavalry, and captured the whole force, thirty-nine in number, with horses, equipments, &c.

(Signed) B. F. KELLEY, Brig.-Gen.

It would seem that a general engagement is considered probable, from the fact that army Surgeons have received orders to hold themselves in readiness to proceed to the Army of the Potomac.

SPECIAL CORRESPONDENCE OF THE N. Y. TIMES

ARMY OF THE POTOMAC, Thursday, Oct. 15, 1863.

Another day has been devoted to the by-play or the strategic efforts of the commandants of the two great armies now moving in parallel lines, each endeavoring to secure the advantage of situation—movements that always precede a general engagement. Nothing but skirmishing, (and only little of that,) moving of trains and immense columns of troops has been done to-day, but the shock of battle is imminent, and no one can tell what an hour may bring forth. Both armies are seemingly in readiness, and, apparently at least, eager for the fray. No men ever fought with more determination than that portion of the gallant and battle-stained Second corps, engaged yesterday at Bristow's Station, under the accomplished and energetic WARREN. With the enemy there was an unmistakable difference. While their officers fought as only desparate men can fight in a failing cause, their men did not seem to be imbued with the same spirit, and fled or surrendered themselves as prisoners of war, more readily than has been their wont in previous trials of strength.

In the recent movements the whole Quartermasters' property—with the exception of a few wagons that broke down—was saved entire; a fact reflecting the greatest credit upon the officers of that Department, when the vast caravan of teams and the surrounding circumstances are considered. It is the first instance, I believe, in this war, on either side, when an army moving to the rear has succeeded in saving its entire train.

The losso f the Second corps at the fight of Broad Run, or Bristow Station, was only 200 in killed and wounded—but a small number being killed. Besides the prisoners, seven guns and two battle-flags were captured in this fight, which to a number of conscripts was their first. Of course, finding themselves alive and well, they feel remarkably jubilant over the result, and think this fighting is not such fatal business after all.

Among the incidents of the field, one is related of Lieut. ANDERSON, of the Ambulance corps. This officer seeing a man fall wounded not far from the enemy's line, rode forward, and lifting him on his horse, galloped back to his position, past two of the rebel regiments. The Colonel of the first one he passed was heard distinctly to order his men not to fire on him, but the second did not treat him so well, although he came through the fire in safety with his burden.

The firing in front, to-day, was a demonstration of the enemy's upon Bull Run. At Union Mills, where the railroad crosses the river, and in front of Warren, at Mitchell's and Blackburn's Ford, they kept up quite a heavy shell fire, with very little harm to our forces; and when they endeavored to mass infantry for a crossing, our fire soon dispersed them. The Third corps, under FRENCH, is at Union Mills.

At sundown all firing ceased, except off to the left. Gen. BUFORD, at or near Brentsville, had been engaged by the enemy, and his guns could be distinctly traced by the flash as they advanced across the country, apparently driving the enemy rapidly.

Everything thus remains; the army is ready for any new scheme of LEE's, or, if he decides to retreat, to follow him up again.

It is evident that MEADE has foiled the rebel General, and left him somewhat doubtful what to do next. J.

PRESIDENT'S PROCLAMATION.

ANOTHER CALL FOR SOLDIERS.

Three Hundred Thousand Volunteers Asked For.

Eleven Weeks Given to Raise the New Army.

Conscription to be Made in States Failing to Supply Their Quotas.

By the President of the United States.

A PROCLAMATION.

Whereas, the term of service of part of the volunteer forces of the United States will expire during the coming year; and, whereas, in addition to the men raised by the present draft, it is deemed expedient to call out three hundred thousand volunteers to serve for three years or the war, not, however, exceeding three years. Now, therefore, I, ABRAHAM LINCOLN, President of the United States and Commander-in-Chief of the army and navy thereof, and of the militia of the several States when called into actual service, do issue this my proclamation, calling upon the Governors of the different States to raise, and have enlisted into the United States service, for the various companies and regiments in the field from their respective States, their quotas of three hundred thousand men.

I further proclaim that all the volunteers thus called out and duly enlisted shall receive advance pay, premium and bounty, as heretofore communicated to the Governors of States by the War Department, through the Provost-Marshal-General's office, by special letters.

I further proclaim that all volunteers received under this call, as well as all others not heretofore credited, shall be duly credited and deducted from the quotas established for the next draft.

I further proclaim that if any State shall fail to raise the quota assigned to it by the War Department under this call, then a draft for the deficiency in said quota shall be made in said State, or on the districts of said State for their due proportion of said quota, and the said draft shall commence on the 5th day of January, 1864.

And I further proclaim that nothing in this proclamation shall interfere with existing orders, or with those which may be issued for the present draft in the States where it is now in progress, or where it has not yet been commenced.

The quotas of the States and Districts will be assigned by the War Department through the Provost-Marshal-General's Office, due regard being had for the men heretofore furnished, whether by volunteering or drafting; and the recruiting will be conducted in accordance with such instructions as have been or may be issued by that Department.

In issuing this proclamation, I address myself not only to the Governors of the several States, but also to the good and loyal people thereof, invoking them to lend their cheerful, willing and effective aid to the measures thus adopted, with a view to reinforce our victorious armies now in the field, and bring our needful military operations to a prosperous end, thus closing forever the fountains of sedition and civil war.

In witness whereof, I have hereunto set my hand, and caused the Seal of the United States to be affixed.

[L. S.] Done at the City of Washington this seventeenth day of October, in the year of our Lord one thousand eight hundred and sixty-three, and of the Independence of the United States the eighty-eighth.

ABRAHAM LINCOLN.

By the President:
WM. H. SEWARD, Secretary of State.

UNION SUCCESSES IN MISSISSIPPI.

The Enemy under Richardson and Chalmers Driven across the Tallahatchie—Arrival of Cotton at Cairo.

CAIRO, Saturday, Oct. 17.

The Memphis *Bulletin*, of the 10th, says the Third Michigan cavalry, Lieut.-Col. MERCER, commanding, encountered RICHARDSON, with 1,800 men and four pieces of artillery, on the Tallahatchie. RICHARDSON retreated to Okolona.

The steamers *Omaha City* and *Belle* have brought up 300 bales of cotton.

MEMPHIS, Thursday, Oct. 15.

Col. HATCH routed and scattered the rebel CHALMERS's command, driving them all beyond Tallahatchie, and gave up the pursuit only when his ammunition was exhausted.

Gen. SWEENEY's infantry took the wrong route. But for this error most of CHALMERS' force would have been captured.

Arrival from the Gulf.

PHILADELPHIA, Sunday, Oct. 18.

The supply steamer *Bermuda*, from the West Gulf Blockading Squadron, arrived to-day. She left Pensacola on the 11th inst. Fever was prevalent among the shipping. She left Port Royal on the 14th. There was no news there. The *Bermuda* did not stop off Charleston.

BALTIMORE, Sunday, Oct. 18.

Capt. GEORGE W. RUSSELL, late of the Fortress Monroe line of steamers, was arrested this morning by the military authorities on serious charges. He is well known to the traveling public. It is said that he has recently returned from a brief visit to Europe.

CHATTANOOGA, Monday, Oct. 12, via NASHVILLE, Oct. 13, 1863.

Complete official returns from the infantry engaged in the late battles have been received at the General Headquarters, and give the following statistics:

THOMAS' CORPS—FOURTEENTH.

	Killed.	Wounded.	Missing.
Officers	36	266	129
Men	636	3,297	2,127

Making a total of 6,301.

M'COOK'S CORPS—TWENTIETH.

	Killed.	Wounded.	Missing.
Officers	40	169	70
Men	363	2,367	1,503

Making a total of 4,520.

CRITTENDEN'S CORPS—TWENTY-FIRST.

	Killed.	Wounded.	Missing.
Officers	39	131	22
Men	296	2,157	655

Making a total of 3,300.

Two brigades of GRANGER's reserve corps, engaged early in the afternoon of the second day's fight, lost:

	Killed.	Wounded.	Missing.
Officers	16	59	34
Men	230	877	527

Making a total of 1,732.

Total loss of four corps, 955 officers and 14,891 men.

The losses of the cavalry, not reported, will bring up the grand aggregate to just about 16,000. Of the 4,685 missing, about 2,500 were wounded. Thirty-six pieces of artillery were lost, and a few wagons.

Southern papers of the 9th are received. They still insist that their whole loss will not exceed 12,000, but partial returns published by them indicate that it is greater. HINDMAN's division alone lost 2,100 out of 3,400 men. The tone of their editorials continues very despondent over the failure of BRAGG to take Chattanooga. JOE JOHNSTON is proved by correspondence to have been all the time in Mississippi, and not with BRAGG's army. Their reports from Mississippi say that two corps from GRANT's army are moving to succor ROSECRANS—one overland from Memphis, and the other by water. JEFF. DAVIS is reported to have arrived in BRAGG's army on the 10th.

All quiet along our front for the last two days.

CHATTANOOGA, Thursday, Oct. 15, Via NASHVILLE, Sunday, Oct. 18.

The vote of the Ohio regiments belonging to the army at this point, as far as received up to this morning, is 9,423 for BROUGH, to 252 for VALLANDIGHAM. Fifteen regiments and eight batteries are yet to be heard from, which will swell BROUGH's majority to over 12,00. Torrents of rain have continually fallen, and kept both sides quiet for three days. All the water courses are very high, and the roads are getting very bad.

OUR SPECIAL ARMY CORRESPONDENCE.

STEVENSON, ALA., Wednesday, Oct. 14, 1863.

The magnitude of this rebellion, the extent of territory covered by our armies, and the vast resources required for the prosecution of the war, can only be fully appreciated when one undertakes to go from one point of our great line of battle to another, and travels thirteen hundred miles in making the journey by the shortest route. To reach the extreme right wing of the National army, would require another journey of equal length. I have only gone from the left to the centre.

No more striking feature exists of the extent of the rebellion, or of our progress in crushing it, than the immense length of the line of communication which the Army of the Cumberland is now keeping open behind it.

It is not so far to Mobile or Charleston, as it is to Louisville. ROSECRANS is over half way, and GRANT has got through.

The tediousness of the journey between the base of supplies and the fighting point is such as to kill all desire to visit that base oftener than one is compelled to. So any such habit which may have been learned in the short-line communications of the Army of the Potomac, is quickly unlearned here.

One no sooner sets foot south of the Ohio River than he scents treason and secession. The cry of half-suppressed loyalty and the mutterings of defiant treason are heard even in Louisville. You breathe the air of subjugation. Kentucky never seceded in fact, but once did in sentiment. And even yet uncompromising loyalists find scarce better favor than half-repentant traitors. But, after all, the military arm is not so stern in Kentucky as it should be. Skulking rebels, fresh from the ranks of their armies, return home daily; and with the secret foes of the loyalists they combine to rob, and burn, and kill. But no matter what crimes they commit, *it requires the affidavits of two or more respectable citizens forwarded to the Commander of the Department, before an arrest is allowed!* It is a positive fact, and such a requirement exists to-day in the department over which Gen. BOYLE presides. A gentleman of undoubted character assured me in Louisville that a state of things existed in the border counties of Kentucky which is only equaled by the condition of affairs in Missouri and Kansas.

But there is an encouraging hope in Kentucky. Gov. BRAMLETTE has demanded at the hands of the people an armed State police, with which Kentucky shall defend itself from the predatory bands of pillaging murderers who infest many of the counties. Securing this, Gov. BRAMLETTE hopes to show the country that Kentucky loyalty has at least sufficient backbone to punish its own criminals.

Nashville is an abomination. Likewise the Nashville and Chattanooga Railroad. Traveler to Nashville—come if you must, but go quickly. However, there is no need of this injunction, for if a dirty city and contemptible hotels, and miserable fare, and outrageous prices, cannot drive you off, then *stay* and suffer. Whether it is because of miserable rule, or military rule, or no rule at all, I can't say, but one thing is certain, Nashville is a horrible place. There is but one redeeming feature. The easy, matter-of-course, *nonchalant* way the military authorities have of granting you what you wish. At least, I found them so.

And the Nashville and Chattanooga Railroad, I'll speak tenderly of it, for it is already not what it was, and promises speedily to be more so. Certainly, thought I, as I rode over it the other day, no MOSBY has ever lived hereabouts, or ROSECRANS' army never would have been supplied by such feeble means. The rolling stock, especially the locomotives, is principally what is left of the original companies, and it takes two engines to run an empty train up a heavy grade. But this is being remedied. Twenty new and powerful locomotives are daily expected for use on this road, and so far as the safety of the line of communication is concerned, that is now beyond all doubt.

"Whoever planned the recent reinforcement of the Army of the Cumberland saved the country from a great disaster." So said a distinguished General yesterday, and his words had all the weight of truth. BRAGG made a desperate effort to prevent the arrival of these reinforcements, and to compel the evacuation of Chattanooga, from want of supplies. But he failed in both, though the execution of his plans did not fail for want of energy, but because we moved faster than he did. A portion of Gen. HOOKER's force accomplished the distance of *thirteen hundred miles in five days!* This promptitude saved the Army of the Cumberland, and the peril was past. WHEELER's cavalry, numbering, perhaps, five thousand, crossed the Tennessee River at Washington, forty-five miles east of Chattanooga. Entering the Sequatchee Valley, they moved down to Anderson's Cross-Roads, where they struck the water, pursued by trains from Stevenson to Chattanooga, demolishing four hundred wagons. They then moved direct upon McMinnville, which place they easily captured—its garrison o five hundred men making no resistance of any consequence. WHEELER's movements were then accelerated somewhat by an attack upon his rear guard, before he got out of the Sequatchee Valley, by Gen. MITCHELL's Federal cavalry, which followed in close pursuit. At McMinnville the rebel force divided, one part going to Murfreesboro, and the other to Elk River Bridge, near Decherd station. They destroyed a small bridge at each place, and at Christiana tore up some of the track, but the accumulation of troops upon the road compelled them to leave without accomplishing any further destruction. A few venturesome rebels went to the top of the mountain at Cowan Station and threw rocks down the ventilators of the tunnel, which they declared on their retreat would disable the road for a month, but which our men removed in an hour. The rebels then fell upon Shelbyville, which they robbed because it is a strong loyal town. But hardly had they got through before Gen. MITCHELL fell upon them, whipped them soundly and sent them rushing southward in great haste. I learn to-day that WHEELER's force finally crossed the Tennessee at Muscle Shoals, Alabama, minus all his plunder, four pieces of artillery, and some six hundred less men than he started with.

Gen. HOOKER had arrived at Stevenson but a day or two before WHEELER struck the road. But he at once sent Gen. BUTTERFIELD up the road, with orders to take all the troops he could find, drive the rebels off, and open the road, and before WHEELER got back to the south side of the Tennessee River the Railroad was again in operation. Thus the raid failed. It might have amounted to something, but it didn't.

The great battle of Chickamauga is still the absorbing subject of discussion in the Army of the Cumberland, and I have already heard a dozen plausible reasons why we were beaten, why the army was checked, for no one here admits that the country has suffered any disaster in the late repulse. But after hearing and reading everything, particularly the very able account by the correspondent of the Louisville *Journal*, I find but one legitimate conclusion to arrive at, viz.—that we were beaten simply because we were outnumbered; that our right and centre were repulsed, not because the troops there were panic-stricken, or did not fight well, but because the troops really had all been sent to the support of the left, and the right and centre were fearfully weak. The enemy had troops enough not only to engage our whole force on the left, but also to assail our right and centre with sufficient energy to cause them to give way. This, it seems to me, is a very good reason why we were beaten.

But as is always the case, the work of crimination and recrimination goes on, and the censured ones demand to be heard. Gens. McCOOK and CRITTENDEN, who have been relieved, passed through here on Sunday night, on their way to Indianapolis. Gen. NEGLAY passed up yesterday on his way to Pittsburgh. They have all been relieved.

A number of changes, I hear, are taking place at headquarters of the Army of the Cumberland. Gen. BRANNAN succeeds Col. BARNETT as Chief of Artillery, and Gen. REYNOLDS takes the place of Gen. GARFIELD, as Chief of Staff, who will soon leave to take his seat in the approaching Congress.

In regard to the enemy, but little seems to be known. Yesterday several refugees came into Gen. HOWARD's lines at Bridgeport, under passes from Gen. BRAGG, to go to Shelbyville, Tenn., to live. They reported the enemy falling back, apparently because of the exhaustion of the country in which they have been living. Some appear to think a flanking movement probable, but this cannot be done now unless at a point forty or fifty miles west of Stevenson, and at great hazard to the enemy. And of course ROSECRANS ought to, and probably does know all about the enemy's movements.

Important Order by Secretary Welles.

NAVY DEPARTMENT, Oct. 6, 1863.

GENERAL ORDER, No. 20.—In the case of the schooner *Prince Alfred*, captured by the United States steamer *Susquehanna*, Sept. 6, 1861, and the schooner *San Juan*, captured by the same vessel, Sept. 28, 1861, prize lists have not been forwarded to the Department, and the distribution of the prize money is thereby prevented.

The Department, therefore, finds it necessary that the share of prize money which would have accrued in these cases to Capt. JOHN A. CHAUNCEY, who commanded the steamer *Susquehanna* at the time of the captures, is forfeited.

The "act for the better government of the Navy of the United States," approved April 23, 1860, directed (art. 7, sec. 1,) that "The commanding officer of every ship or vessel in the navy who shall capture or seize upon any vessel as a prize, shall carefully preserve all the papers and writings found on board, and transmit the whole of the originals, unmutilated, to the Judge of the district to which such prize is ordered to proceed, *and shall transmit to the Navy Department*, and to the agent appointed to pay the prize money, *complete lists of the officers and men entitled to a share of the capture*, inserting therein the quality of every person rating, *on pain of forfeiting his whole share of the prize money resulting from such capture, and suffering such further punishment as a court-martial shall adjudge.*

A similar law, providing the same penalty for failure to transmit prize lists to the Navy Department, is contained in the "Act for the better Government of the Navy of the United States," approved July 17, 1862.

The Department has no discretionary power to remit this forfeiture. Its duty is confined to the enforcement of it, so soon as it is clear that the intent of the law has been violated, and its purpose defeated, and that those entitled to prize money are suffering the consequences of a culpable neglect by their commanding officer of a duty so strongly enjoined.

Its power to order a court-martial, with a view to the further punishment of the offender, is discretionary, and it may be compelled to exercise this power. But it trusts that this example of a faithful enforcement of the positive and certain penalty provided by the law will have the effect of preventing similar neglect of duty on the part of commanding officers making captures.

FROM OHIO.

Vallandigham's Defeat—The Ghost of the Copperheads—Character of Brough—Enthusiastic Reception of Secretary Chase in the West.

Special Correspondence of the New-York Times.

CINCINNATI, Ohio, Friday, Oct. 16, 1863.

Did you hear the clap of thunder from Ohio? Was it not a startling Alpine peal, leaping from crag to crag across the continent, and warning our own and other nations that a frightful bolt had struck *somewhere*. It was *here* it struck—here in this stretch of "Northwestern territory," lying between the Ohio River and Lake Erie; the first soil consecrated to Freedom by National act on this continent—*here* the bolt struck on Tuesday last, paralyzing every arm that would raise again the black banner of Human Slavery, and sealing, as it were, by Divine wrath, the work long since decreed by Divine goodness. "The voice of the people is the voice of God," and never was that voice uttered with more emphasis and effect than in the late election. Defeated partisans, lately raging with fury, stand appalled and abashed by the visitation, and meekly admit the irreversible and overwhelming judgment against them. But I will leave it to the "Veteran Observer" to philosophize for you on the extraordinary phenomenon of the Ohio election.

Six weeks ago I passed through this broad State, from west to east, somewhat leisurely—and I told you, as the result of my observations, that VALLANDIGHAM would be beaten by 100,000 majority. No one else seemed to think so—least of all the people of Ohio. When I came back here—reëntering the State on the day of the election, and passing through it all day long, while the ballots like snow-flakes were falling—I found the Union men working for dear life at the polls. They gathered in the voters anxiously and hastily, as a farmer gathers in his hay-cocks when a dark storm is brewing. I met sons of Ohio who had come all the way from Memphis to cast a ballot. Chicago and New-York sent home their contributions, and even the eminent Minister of Finance, Secretary CHASE, dropped for a brief time his national reckonings, and returned hither to vote the Union ticket! Loyal Ohio was terribly excited, if not alarmed, and dealt on Tuesday last her most tremendous blow. She struck as if for existence as well as honor, and the wires have told you the result. I think the 100,000 majority will be more than realized. The majority of the home vote will approach 70,000, and the soldiers' vote will swell that to almost its own extent, for few soldiers vote for VALLANDIGHAM. It is well the majority in the home vote is so vast. If VALLANDIGHAM had received a majority of these, and the votes of the army had overcome that majority, we should have had no end here, or in the great rebel organ in England, of lamentations over the fatal advances of "military despotism" in America.

Now that the affair is over, there is something almost ludicrous in the condition of "copperheadism." It seems that there was nothing of strength or danger in it. It was like one of the ghosts of your theatres—sepulchral in aspect, dark in its haunts and sulphurous in smell—but when robust loyalty dashed forward to grapple with it, it vanished into thin air, and sought its fit infernal shades. It never had even "the ghost of a chance" of success.

So much for the Ohio election. If in a national sense the State has done the country an incalculable service in the election of JOHN BROUGH, the people have not less wisely served themselves. The Governor elect is a model public servant. He is not a man who has taken to public life because he could not succeed as a private citizen. On the contrary, it is because of his eminently successful career as a business man that he became known to the State and was pressed into the public service. He will infuse energy into the State Administration, establish order in every department, enforce punctuality and fidelity in all transactions, and keep the State in the very best financial condition. The tax-payers as well as the creditors of Ohio will bless the day JOHN BROUGH was made Governor.

I have mentioned the fact that Secretary CHASE came home to vote in the late election. He had not been near his old home for three years previously. He was sent to Washington in the latter part of the year 1860, as a delegate from Ohio to the "Peace Congress," was kept there by the exciting events of that eventful Winter; in March following was made Secretary of the Treasury by Mr. LINCOLN; and since has devoted his whole time and thought, the country knows how faithfully, to restoring and sustaining the finances of the Government. His visit West was an event to be remembered by him and by all who witnessed his triumphal passage through the country. He was everywhere received with unbounded affection and enthusiasm. His coming was wholly unheralded. His closest friends knew nothing of it till he was right among them. But the outpouring was everywhere instantaneous and immense. The excitement grew each day he continued here, and if he had remained he would in a week have fairly effaced, by the new current of popular enthusiasm, the profound excitement growing out of VALLANDIGHAM's defeat. He was literally overwhelmed with invitations to visit the towns and cities of Ohio and the neighboring States, including the great centres, Chicago and St. Louis. The Secretary felt obliged to decline them all, only yielding so far as to take Indianapolis in his route home, in compliment to Gov. MORTON and a most admirable delegation of Indiana, that came down to Cincinnati, and would not go back without him. The reception at the capital of Indiana was a grand affair, quite worthy of the patriotic Hoosier State. Mr. CHASE delivered a happy address, accepting the honor tendered to him as properly to be divided with the Administration, "each member of which, the President and each one of his advisers," he was prepared to vouch, had labored faithfully and with an honest purpose to save the endangered nationality, and execute the will of the American people. He entered into a brief, but exceedingly clear and convincing exposition of his "financial policy," showed how it grew up out of the national necessities, harmonized with the national interests, and in the end would be inseparable from the national progress in unity and power. I had the pleasure of accompanying Mr. CHASE on part of his journey, and saw him subjected to that severe ordeal of being required to speak to the people at every railway station he passed. He showed himself a perfect master of the art oratorical. He never repeated himself—always had something new and something pleasant for every crowd—making the occasions quite as fresh and entertaining to his traveling friends as to the *impromptu* Station audiences. You may set it down as one of the great facts of the times, that no man has achieved a more solid reputation among the masses of the people during this rebellion than Secretary CHASE. It is quite a mistake to suppose that "military glory" has obscured or will obscure all memory of other services. I doubt if any General in the field, even the most successful, would, in passing to-day through the country, excite anything like the wild enthusiasm and joyous popular acclaim of the hundreds of thousands that rushed forth in the West to hail and cheer the "father of all the greenbacks," as he was everywhere and always fondly called. He will go back to Washington, buoyed up and sustained in heart and courage by the consciousness that it is not in vain that he labors and has labored for the country's salvation. For while he has seen in the West the evidences that the whole machinery of his Department is working admirably, sustaining the war and promoting general prosperity, he has also been made to feel that the nation is treasuring up the memory of his services, and will not let one laurel be lost that may be fairly claimed to deck his brow.

TOBACCO FOR FRANCE.

From the Richmond Examiner, Oct. 10.

Vicomte DE ST. ROMAIN has been sent by the French Government to ours to negotiate for the exportation of the tobacco bought for France by French agents. The Confederate States Government has at last consented to allow the tobacco to leave the country, provided the French Government will send its own vessels for it. The latter will send French ships, accompanied by armed convoys. To this the United States Government objects *in toto*. Vicomte DE ST. ROMAIN is now making his way to New-York, to send the result of his mission, through the French Consul, to the Emperor. The French frigates in New-York are there on this errand.

THE SITUATION IN TENNESSEE.

From the Chattanooga (Atlanta) Rebel, Oct. 9.

Upon reaching the Tennessee River from the field of Chicamauga, ROSECRANS addressed his troops. "Fellow soldiers," said he, "the object of our expedition was the possession of Chattanooga, and here we are." Brief, and to the point; forcible and adroit. Thus far, the campaign whose mysterious surges are rolling above us, has no clearer, as it certainly cannot have a more laconic history. The few words of the Federal General illuminate the whole page as a ray from a dark lantern, and no man can close his eyes to the somewhat painful glare which they throw full upon him.

Not even Gen. BRAGG himself can contradict them, except with his sword, and such strokes as it may please Heaven to send us through his hands, in the few days of fall weather just before us. Unless we hasten to make hay while the sun shines, the story as thus told, will hold good through all time; the spring will open untoward dangers to our arms; the cause which now turns upon the pivot of its crisis will drop like a flower which has been untended, and the end must fade out of sight in a rolling torrent of disasters—in fogs and gloom. God forbid it!

At present the case stand in about this wise: We have lost the gate to lower East Tennessee, the river, which was our base, and the facilities which these afforded for progressive movements into East Tennessee and Kentucky. We have gained a hand-to-hand fight, we have repelled a powerful invasion; we have preserved Georgia, and secured a commanding position around the enemy. *Rosecrans, on the other hand, has acquired all that we have lost.* He has reached Chattanooga and fortified it, taken up the river line as his base, and now prepares quietly to winter in his new quarters, leaving us uncivilly out in the cold to take care of ourselves as best we can or must. Physically and to all appearances, in the aggregate he is the gainer; for, after the prisoners, standards and artillery taken at Chickamauga are counted, our victory is told, whilst our deficit, in the long sum total, glory included, does not make up for any results yet achieved.

In a word, we have lost ten or twelve thousand men without gaining an equivalent in producing territory. The whole question, therefore, turns upon the situation, and what we will do with it. In military circles it is generally believed that ROSECRANS has blundered into a position which, improved by an adversary of genius, might be turned in three adroit movements to his eternal ruin. If this be so, and the movements speculated, but by no means explained, are made, the victory of Chicamauga will be complete, and the many lives there sacrificed will become as so many trophies to a noble work. But if this opinion be false and the movements suggested as possible fail to be made, and we continue to gaze listlessly from the bold knobs of Missionary Ridge upon comfortable barracks of the blue varlets below, then may we tremble for the next campaign; for as sure as there is any surety in the future, the Spring of 1864 must see us far from the borders of Georgia, or near to the verge of destruction. Nail it to your door-post, men of the South, and refuse to be deluded into any other belief. Food and raiment are our needs. We must have them. Kentucky and Middle Tennessee can only supply them. Better give up the sea coast, better give up the southwest, aye, better to give up Richmond without a struggle, and win these, than lose the golden field, whose grain and woof are our sole hope. The enemy has just one army too many in the field for us. We must crush this overplus; we must gain one signal, Stonewall Jackson campaign. Destiny points to the very place. Be ROSECRANS the victim. Defeat him, pulverize him, run him to the Ohio River, and then close the war with the next summer. And how? Nothing easier. The one which has really stung our flank so long, once disposed of, our triumphs and legions have a clear road before them. Fed sumptuously through the Winter, well shod and clad, they have only to meet a dispirited foe, retake the Valley of the Mississippi, secure the election of a peace Democrat to the Presidency in the Fall, and arrange the terms of treaty and independence.

These results can be accomplished no where else than in this Department. The northwest is our real adversary.

No matter how often we whip the East, the effect is still born to the end. Let us teach the true contestants a lesson of peace and soberness, and the difference will be seen as speedily as our need calls for the deed.

THE REV. LIEUT.-GEN. POLK'S FAREWELL TO HIS COMMAND.

HEADQUARTERS POLK'S CORPS, TENNESSEE, MISSION RIDGE, Sept. 30, 1863.

To the Officers and Soldiers of Polk's Corps:

In consequence of an unfortunate disagreement between myself and the Commander-in-Chief of this Department, I have been relieved of my command, and am about to retire from the army. Without attempting to explain the circumstances of this disagreement, or prejudicing the public mind by a premature appeal to its judgment, I must be permitted to express my unqualified conviction of the rectitude of my conduct, and that time and investigation will amply vindicate my conduct on the field of the Chickamauga.

I cannot, however, part, even temporarily, with the gallant officers and soldiers of my old corps without the deepest feeling of regret and a heartfelt expression of my gratitude for the courage and devotion they have always manifested while under my command.

Belmont, Shiloh, Perryville, Murfreesboro and Chickamauga, all attest on your part the very highest soldierly qualities, and are crowded with precious memories. Contending with a numerous, well-appointed, and merciless enemy, for all that man holds dear, you have borne unexampled privations with fortitude, fought with undaunted bravery, and ever yielded a cheerful obedience to your officers.

Soldiers who struggle in such a cause, and with such hearts, can never be conquered.

Clouds and darkness may enshroud you for a time, but the sunlight of the future is bright and glowing. The blood of patriots is never shed in vain, and our final victory is certain and assured.

Whoever commands you, my earnest exhortation and request to you is, to fight on and fight ever, with true hearts, until your independence is achieved. Thousands of brave hearts may fall, crushed and bleeding, under the weapons of the foe, or the passions and mistakes of friends, but the great cause must never be sacrificed, or our flag abandoned. Our cause is just, and our duty to our country and God is as clear as the sun in the heavens.

I leave my command in the care of the bravest of the brave, who has often led them in the darkest hour of their trials. He and you will have my hopes and prayers to the Ruler of the Universe, for your happiness and success. Your kindness, devotion and respect for me, exhibited during the years of our association, both in camp and in the field, are graven on my heart, and will be treasured there until it ceases to beat.

Your friend,

LEONIDAS POLK, Lieutenant-General.

FROM THE RAPIDAN.

From the Richmond Whig, Oct. 10.

This is, probably, the last time we shall have occasion to use the above caption to an army paragraph, as there now seems to be no doubt of the falling back of MEADE's army toward Washington and the advance of Gen. LEE in pursuit. Gen EWELL crossed the Rapidan, according to report several days ago, and the remainder of the army has no doubt, crossed ere now. Our information is meagre, but from all that we can gather, an engagement between the two armies must soon take place unless MEADE takes a position in which it will be deemed inexpedient to attack him.

MISSISSIPPI ELECTION.

MERIDAN, Miss., Friday, Oct. 9, 1863.

Gen. CLARKE is elected Governor by a large majority. He carried every county in the State. A special to the *Clarion* says that ORVIS is elected to Congress in the First District and HOLDEN in the Second. WELSH is reëlected in the Third District and BARKSDALE in the Sixth. McRAE is thought to be beaten by LUMPKIN in the Seventh District.

WOOL—The demand for all descriptions has been unusually active, during the past week, chiefly for manufacturing purposes, though, in part, on speculation, and, encouraged by the rise in gold and exchange, buyers have paid much higher prices, especially for domestic, both here and in the interior—the market closing excitedly. The week's sales comprise 475,000 lbs. domestic fleece at from 65c.@73c.; 125,000 lbs. do. pulled; No. 1 superfine and extra, from 65c.@80c., mainly at from 68c.@73c.; 300 bales California at 37½c.@52½c., mainly at 40c.@45c.; 250 bales Noils, No. 2 Bigelow, at 45c.; 300 bales Mexican at 23c.@30c., mainly at 23½c.@24c.; 500 bales Cape at 33c.@42½c.; 60,000 lbs. Cordova at equal to 42c.; 300 bales Province and Constantinople at 30c.@37c.; 150 bales fine Chilian at 35c.; 500 bales Mestiza at 24c.@36c., mainly at 25c.@30c.; 200 bales Valparaiso and sundry other lots of foreign, on terms not made public. Messrs. J. P. ATKINSON & Co. announce an auction sale of 1,200 bales choice Spring-clip California for November—the day of the sale being as yet undetermined. In Boston, according to the *Commercial Bulletin*, there has been "a very extensive movement in Domestic Wool during the past week, indeed the heaviest of the season. The competition has been active between buyers, in view of a rising market and the dilatory disposition of Wool growers in parting with their clips; and prices, tending gradually upward, have attained a higher figure than at any period since the wild speculation of last Spring. Manufacturers are apparently satisfied that the present rates are not simply the result of Gold fluctuations or mere temporary inflation, but that they will be permanently sustained, as they have abandoned the policy of holding off, and are now buying largely ahead of their current consumption. Many large lots have been taken, especially of medium, long staple fleece and pulled, by parties engaged in the flannel-felting and delaine manufacture, and the market is at present left nearly bare of these descriptions. Fine fleeces for fancy cassimeres and light Spring fabrics are also in active demand and moving freely. Some sales have also been made to arrive. Our quotations exhibit an improvement upon last week's rates of some 3c.@5c. for fleece, and 2c.@3c. for pulled. Indeed, the market has now reached a point at which many really valuable and high-cost lots of wool, forwarded on consignment with limitations as to price, can be offered to consumers, who are not slow to avail themselves of the opportunity for securing them before circumstances may warrant holders in marking them up. At the close the demand continues active and the upward tendency very strong; both dealers and growers are holding very firmly, and refuse to duplicate lots for prices at which sales were made early in the week. The sales of Domestic for the week foot up some 1,150,000 lbs. (those of a single house amounting to 300,000,) at a general range of 72½c.@85c. for fleece, though we hear of some fancy clips of Pennsylvania and Virginia which sold as high as 87½c. Included are 140,000 lbs. long-staple medium New-York, for delaine manufacture, at 73½c., 74½c., being refused for another lot of the same grade, several lots of Michigan at 80c.@83, and choice Ohio at 85c. Indeed, nothing decent in the shape of fleece is now offered under 75c. In pulled, the transactions have been considerable at a range of 65c.@90c. for the various grades of No. 1, superfine and extra. Included are 16,000 lbs. Cincinnati superfine at 87c., now held at 70c., 10,000 lbs. Rochester superfine at 67½c., lots of Rochester extra at 65c.@67c., and Billings do., at 90c. Small sales of California, at 35c.@45c., and of Canada at 65c.@70c., as to quality. In foreign, the sales have been some 3,000 bales of all descriptions, including 115,000 lbs. fine Russian on private terms, 145 bales Cape at 38c.@45c., the outside figure for a fancy lot now held at 45c., and Mestiza nominally 30c.@37½c., the latter for choice, but none in first hands." But in the Western and the Middle States buyers are operating as industriously as circumstances will permit, at very full prices—say from 73c. to 75c., and in some cases as high as 76c.@78c. for choice lots, delivered on the spot. But though the primary markets have now come up to the standard which growers all along have been contending for, they are apparently not at all anxious or in a hurry to part with their fine reserved clips; and their indifference upon this point probably results from the conviction that they can sell at any time they choose, just as well to-morrow as to-day, and perhaps a little better. In Philadelphia, sales have been made of 300,000 lbs. domestic fleece at 75c.@80c. ℘ lb.

FREIGHTS—Have been quiet to-day, and rates steady. For Liverpool, the engagements included 5,000 bushels Wheat at 6d. per bushel; 300 tons heavy goods at 15s.@18s. 6d., [illegible] Provisions by sailing vessel and steamer, at 20s.@22s. 6d., and 40s. per ton. For London, 7,000 bushels Wheat at 7d. per bushel; 2,500 bbls. Petroleum at 6s. 9d. per bbl. For Glasgow, 15,000 bushels Wheat at 8s. 3d. per quarter. MISSOURI LANDS.

To close the business of an estate, the undersigned, as trustee, offers for sale

2,600 ACRES OF LAND,

situated in St. Charles County, Missouri, about 25 miles from the City of St. Louis, and near the North Missouri Railroad. These lands were selected by a competent person for a model farm; 2,300 acres being rich prairie, and 300 acres heavily timbered and some two miles distant as a recourse for fencing and fuel. Over 1,000 acres are under fence and have been cultivated.

The above will be sold as a whole and for cash, or on short time, and at a price which will make it a splendid investment to the purchaser.

For further information, address

JOHN B. SEMPLE,
Pittsburgh, Penn.

GREAT SALE OF 107,000 ACRES OF RAILROAD LANDS AT AUCTION.—The Dubuque and Sioux City Railroad Company will sell at auction, at their office in Dubuque, Iowa, on THURSDAY, the 12th day of November next, one hundred and seven thousand acres of land, consisting mostly of Des Moines River Lands. Sale to be continued from day to day until all are sold.

These lands are the best in the State and possess the following qualities and recommendations:

COAL.—They contain inexhaustible mines of bituminous coal, convenient to the line of said railroad.

GYPSUM.—The only gypsum, or plaster of Paris bed in the Mississippi Valley is immediately among these lands. It is of superior quality, and is found in inexhaustible quantities. Specimens of coal and gypsum can be seen at the office of the Company.

OTHER MINERALS.—Hydraulic cement, fire-clay and iron ore are also abundant. Stone for building purposes is plenty. There is also a grind-stone quarry.

TIMBER AND WOOD will be sold in sufficient quantity to supply the prairie lands. The timber consists of black and white walnut, oak, sugar-maple, bass-wood, elm, etc.

WATER AND SPRINGS.—These lands are well watered. Large and excellent springs are very numerous, so much so as to make it one of the characteristic features of the vicinity of Fort Dodge, where these lands are situate.

GRASS, STOCK-RAISING.—These lands offer especial attractions to those about to embark in stock-raising. The native grasses of that region yield nearly three times as much per acre as in the vicinity of the Mississippi River. Two varieties of native red-top grow very luxuriantly in that region. Very large herds of cattle and sheep have already been attracted thither.

CORN AND WHEAT grow much more luxuriantly in that vicinity than in the easterly part of Iowa. The soil is exceedingly rich and deep. The neighborhood abounds in limestone, which is a sufficient guaranty for regular and abundant wheat crops.

HEALTH AND CLIMATE.—The country is very healthy; and is entirely free from those diseases which prove so great a drawback in the more southerly portions of this and neighboring States.

SETTLEMENT AND SCHOOLS.—The lands are situate in the immediate vicinity of Fort Dodge, Webster County, Iowa. Fort Dodge already contains a population of 1,000 inhabitants, a fine court-house, several churches, schools, stores, &c. It is destined to soon become the largest town on the line of the Dubuque and Sioux City Railroad, between Dubuque and the Missouri River. A large portion of the lands offered for sale are situated among improved farms, where the settler will enjoy all the advantages of a partially improved country. The people of that vicinity are generally from the Eastern and Northern States.

RAILROADS.—The Dubuque and Sioux City Railroad is now completed and in operation to Cedar Falls, one hundred miles from Dubuque. Forty-four miles, from Cedar Falls to Iowa Falls, are now under contract, and being rapidly pushed forward. It is expected that the road will be completed to Iowa Falls early in the Spring, and to Fort Dodge as fast as possible. The Keokuk, Fort Des Moines and Minnesota Railroad will probably reach Fort Dodge from Keokuk nearly as soon as the Dubuque and Sioux City.

Further information can be obtained at the office of the company, where maps and a detailed description of the lands can be seen. Persons or colonies wishing to purchase are especially invited to go out and make personal examination, and satisfy themselves with regard to the above representations.

The company obtained the title to the lands by direct grant from Congress, and will make warranty deeds to purchasers.

Terms of sale—Cash.

JAMES M. McKINLAY, Secretary.

NEWS OF THE DAY.

THE REBELLION.

The clash of arms between the opposing hosts in Virginia cannot be much longer delayed if the brief reports which are telegraphed from Washington may be depended on. The latest dispatch informs us that the Army of the Potomac is now within the defences of Washington, but the position of Lee's army is not made known. We infer, however, that the rumored withdrawal of the rebel forces to the Rappahannock is not a fact, and that there is truth in the statement that the rebels are in force at Manassas Junction, and have sent reconnoitering parties thence into the Shenandoah Valley, though whether with a view to operations there, we cannot conjecture. There has already been some skirmishing with rebel cavalry in the Valley.

The President of the United States, in view of the speedy expiration of the term of service of a portion of the soldiers of the Republic, Saturday issued a Proclamation calling for *three hundred thousand volunteers*. In case the quota required of each State is not raised by volunteering, a draft will be ordered to make up the deficiency.

A dispatch from Chattanooga, Oct. 15, announces that both armies had remained quiet for the preceding three days, in consequence of the heavy and increasing rains. The Tennessee River and all its tributaries are rising rapidly, and the roads are becoming greatly impaired. The official reports of the killed and wounded in the battles of Chickamauga foot up a grand aggregate of about 16,000 Thirty-six pieces of artillery were lost, and a few wagons.

A Memphis dispatch states that the rebel Richardson, with 1,800 men, had been compelled to retreat by the Third Michigan Cavalry, under Lieut.-Col. Mercer, from the Tallahatchie River, in Northern Michigan, to Okolona. The command of the rebel Chalmers is also reported to have been routed and scattered by Col. Hatch, and driven across the Tallahatchie.

Correspondence from New-Orleans to the morning of the 10th inst. informs us that Gen. Banks has taken the field, and that the Nineteenth Army corps reached Vermillion River, a few miles south of Vermillionville, the morning of the 9th. It was thought that there would be no delay in crossing. There was sharp skirmishing, and some prisoners were taken from the enemy. Their loss is not known. Lieut.-Col. Cowan, of the Third Texas cavalry, was wounded.

GENERAL NEWS.

Col. Dan McCook, of the Fifty-second Ohio regiment, has destroyed the home of the murderer of his brother, Brig.-Gen. McCook, who was butchered while lying wounded in an ambulance. The avenging brother left not one stone upon another, and made it a place of desolation. The house was near Huntsville, Ala.

On the night before election Rev. Dr. Bronson, of Sandusky, urged a prompt attendance at the polls on the next morning, to see that everything was done right, and said he should be there at 6 o'clock. The reverend doctor was on hand as he promised at his polls in the Second Ward, and, it being supposed that the doctor might do some good in a spiritual way, he was asked to make a prayer, which he did with great unction, and with great effect upon the auditory. So there was one set of poll books opened with prayer.

The Cincinnati *Commercial* says that "the venerable Catholic Archbishop Purcell, accompanied by Bishop Rosecrans, appeared at the polls in that city on Tuesday, for the first time in 25 years, and voted an open Union ticket."

The Louisville *Journal* learns, by a gentleman recently arrived from Natchez, that the defences of that city are being greatly strengthened. Not less than five thousand contrabands are engaged on the works in the rear of the city, and it is thought that Natchez will soon be equal in strength to Vicksburgh.

Among the rebels captured by our forces the other day, in the vicinity of Columbia, was the notorious Galloway. He is the same man for whose capture Gen. Negley, some time ago, offered a reward of five thousand dollars.

On the 11th inst. fever was still prevailing among the shipping at Pensacola.

There was a further fall of 3 ℔ cent. in Gold and Exchange on Saturday, Gold leaving off 149 @149½ ℔ cent. Stocks steady, with the exception of Harlem, which fluctuated through the day 12@14 ℔ cent. The Money Market quiet.

Breadstuffs were less freely dealt in on Saturday at reduced prices. Provisions opened briskly, but closed heavily. Groceries were quiet. Whisky was more active and firmer. Hay, Hops, Leather and Tobacco were in good demand. Cotton was quiet and unsettled. Freights exhibited less animation. There were 628 vessels of all classes in port. Other branches of trade presented no really new feature.

The French Frigates in Our Harbor—A Strange Mission Assigned to Them.—There has been a great deal of speculation concerning the purpose for which vessels-of-war of each of the three greatest Powers of Europe were in our harbor. The public, we believe, generally settled down into the belief that the English *happened* here; that the Russians had come to our Atlantic coast for safety in event of war between Alexander and Napoleon; but nothing intelligible could be suggested regarding the French, unless, like the English, their coming was an accident. Concerning this latter, the Richmond *Examiner* pretends to have news—wonderful, if true. The French Government, which monopolizes the tobacco trade of France, and gains from it an enormous annual revenue (amounting in 1860 to about *two hundred millions* of francs), sent agents to the South shortly after the inauguration of the war, to purchase large quantities of the Virginia weed; but the Confederate Government was unwilling to let it go from their ports, and it has been stored at certain points in Virginia for nearly two years. The *Examiner* says that Vicomte de St. Romain has at last obtained the consent of the Richmond authorities to let the tobacco go, provided the French Government will send its own vessels for it. which the latter will do, accompanying the ships by armed convoys; and it is on this errand that the French frigates have been sent to New-York. To this whole arrangement, however, the Federal Government objects; and Vicompte de St. Romain has come North to communicate the results of his mission to the French Emperor.

The main features of this story are highly probable, though it does seem singular that the French Government should ever think it possible that our Government would permit the export of tobacco, under such circumstances. If the French could thus purchase and export tobacco from the South, they could of course do the same with cotton and with sugar, and might thus drive an enormous trade with the Confederate Government, and fill up its exhausted coffers. And if the French Government had this privilege, we could deny it to no other; and thus the blockade of the Southern coast would be completely abolished. It is simply absurd to conceive that the United States Government could consent to this.

The President's Call for Soldiers.

We rejoice that the President's Proclamation for three hundred thousand more troops leaves the alternative open of *either* volunteering or draft. It is an excellent thing that the Governors of New-York and New-Jersey, who have found such fault with the last draft as being an *unnecessary* resort, should show what they can accomplish in the line of volunteering. It is true that the latter functionary has had a chance already. His high-flown engagement to the President to supply the quota of his State with volunteers, if the draft upon it were postponed, did not turn out very successfully—in fact it had what disrespectful people would call a somewhat "fizzling" termination. No man of feeling will grudge him another opportunity. As for Gov. Seymour, his case is hit exactly.

The President allows nearly twelve weeks for the contribution of the required number of soldiers by volunteering. It is an ample period. Whatever can be effected in that way at all, can, with proper energy, be accomplished in that time. The season of the year is favorable. The prospects of the war, too, are much more inviting than when the last call was made. In all probability the heaviest battles of the war have been fought. It is certain that the rebel armies long since attained their maximum, and they have no resources left to draw upon for reinforcements. The increase to our own armies still going on from the late draft for three hundred thousand, and the accession of three hundred thousand more from the present call, will far more than make good, for at least a year to come, the losses resulting from expirations of enlistment—which losses will be greatly limited by the fact, that a large proportion of the old soldiers will yield to the peculiar inducements offered by the Government, and reinlist. Thus our armies will be secured a superiority of strength over those of the rebels such as they have never yet possessed; and the effect would be a great acceleration of the process of putting down the rebellion. With so reasonable a promise of an early termination of the war, volunteering, to the desired extent, ought to be much more practicable now than it was last March when the President ordered the draft.

But how far will the opponents of the Administration improve these facilities? What will be their general disposition to encourage volunteering? It has been widely believed that their opposition to the draft—or the "conscription" as they insisted upon calling it—sprang not so much from dissatisfaction with it as a war measure, as from dissatisfaction with the war itself. It has been considered that they were really against any material enlargement of the army, because it lessened the chances of ending the struggle by a compromise—and that they so strongly resisted the Enrollment Act for the particular reason that it invested the Government with the power of enlarging the army to any extent necessary to give the war complete success. That party now has the opportunity to relieve itself of these imputations, if they are groundless. It has but to do its best to stimulate the volunteering spirit—by its speeches, by its personal contributions to volunteer funds, by its liberal votes for bounties in municipal councils where it holds power, and by the prompt and strenuous and unflagging action of its two Governors—to justify a conclusion that, after all, it was sincere in the reasons assigned by it for opposing any resort to compulsory service. Its *rôle* is a very simple one, if there be any disposition to carry it out. It would doubtless obviate, too, all necessity for the draft. We will vouch that the friends of the Administration would heartily coöperate with them in every endeavor to promote volunteering, and there can be no question that a combined effort of this character, embracing all men of all parties who have an influence with the people, would triumphantly reach its consummation within the designated period of three months, and thus all occasion be removed for the obnoxious draft.

Does any intelligent man, however, seriously expect to see any such honest endeavor? Possibly it may be seen in particular localities, but there is as little likelihood that the leopard will change his spots as that the Anti-Administration party, as a whole, will drop its factious character, and heartily coöperate with loyal men in this object. The President has done well in putting his call in an alternative shape, but he cannot hope that he has thereby enlisted his opponents into a hearty support of his policy of augmenting the army. We may safely say that they will still keep up their old system of abusing him because he does not push on the war more rapidly, and yet, all the while throwing every obstacle in the way of his raising the men necessary to secure that greater progress. They will, as a body, do substantially nothing to promote volunteering, and yet when the only other alternative of drafting comes, they will raise the same old outcry against it—if not on the old pretence, then on some other equally unwarrantable.

But all danger from this sort of management has now passed. This faction is now too well understood by the great majority of the people to be longer capable of any serious mischief. It is now more of a scandal than a positive bane—copperhead, to be sure, but the copperhead with its fangs drawn.

The Situation in Virginia.

There is a report from Washington that the Army of the Potomac has steadily fallen back until now it is planted within the defences of Washington. The rebel army, according to one dispatch, had massed a heavy force at Manassas; but another dispatch has it that a cavalry reconnoissance was made yesterday to near Bristow's Station, some distance beyond Manassas Junction, and nothing was found but a few rebel scouts. This latter fact, and the general tenor of the dispatches, indicate that the prevalent opinion in Washington is, that Lee is fronting his forces toward the Shenandoah Valley. Already there has been some skirmishing with the rebel cavalry in that vicinity.

In a strategical point of view, the army of Gen. Meade retreated before the advance of Lee; but this retrograde movement of our army, unlike that of Gen. Hooker in June last, had been planned, pre-arranged, and prepared for long before it was executed. Gen. Meade fell back to his present position, from his advance lines on the Rapidan, in pursuance of the original plan adopted, or to be adopted in event of a rebel advance, immediately after our army was depleted by the two corps sent as reinforcements to Gen. Rosecrans last month. The reason of this is obvious—being simply for the purpose of shortening our lines of communication, and putting Meade's army in the strongest possible position, and in a position where it could cooperate or combine with the large military force which is always retained immediately around the National Capital. Unquestionably Lee's army is numerous and powerful—his force never having been depleted to any such extent as was maintained by the telegraph a month ago; and his purpose and effort, ever since the inception of his movement ten days ago, was the simple one of flanking the army of Gen. Meade, or getting in his rear, with the object of cutting off his communications, preventing his reinforcement, and isolating him from Washington. The prime necessity for Gen. Meade was by any means to prevent this; and by a series of very skillful and handsomely executed manœuvres and movements, he has completely foiled Lee, and accomplished his premeditated aim. The rebels attacked a part of our army at Bristow's Station, as it was marching inward, but they gained nothing whatever, and lost seriously by the attempt. The whole force under Gen. Meade, with all his material of war and supplies, were brought safely within his new lines; and certainly nothing better could be desired than that Lee should now advance to the assault. The main facts here stated, seem to have been clearly apppreciated by the public, both here and in Washington, as is displayed by the general feeling of confidence and power.

Lee has thus far kept the main body of his army entirely out of sight. But the fact that he has only chosen to show the single corps of A. P. Hill, and only brought that corps into action at the fight at Bristow's Station, does not by any means prove that that is his whole army. The screening of his forces now is his true policy, whatever may be his plan of campaign—whether it be to menace Washington or to advance into the Shenandoah Valley. For either campaign our army is now well posted. If Lee should be so mad as again to cross the Potomac, he will be met as he was met in July last, and it will be the victor of Gettysburgh whom he will meet. Another such encounter as that, will be about all that the Southern Confederacy can well endure.

A Word in Gov. Seymour's Ear.

Gov. Seymour has enjoyed during the past year the honor of being the only official champion of the Democratic party, and he assumed, without having received any formal appointment, the functions of general guardian of the public liberties against Federal encroachment. He and his friends have earnestly called the attention not only of this State, but of the whole North, to his career as a fair specimen of the manner in which popular rights would be taken care of if there were a Democratic Administration in Washington. In fact, if we might judge from the language of his organs, he looked on himself and wished to be looked upon by others as the real representative and mouthpiece of this afflicted nation—a sort of shepherd of the people—and President Lincoln and his Cabinet were held up to odium as a herd of ravening wolves, playing havoc in all parts of the fold that our Governor was not able to look after.

We tried to persuade him, and we were aided by a large number of shrewd and honest men, that this view of his position and duties was radically mistaken and highly dangerous. We have assured him, over and over, that he owed his Governorship solely to the fact that the election took place when the country was plunged in one of those fits of peevishness and depression which are the accompaniments of all great wars. Things had gone badly during the first year of the contest. People were profoundly humiliated and disappointed by the inglorious result of the first campaign, and not unnaturally, or at all events, as usual—ascribed it all to want of energy and ability on the part of the Administration. They looked around for some means of rebuking it, and the election of Mr. Seymour presented itself as the simplest and readiest. A severer rebuke than this they certainly could not have administered.

If he had understood this clearly—and it required more than ordinary dullness not to understand it—he would have placed himself and his party in a very different position from that in which they stand to-day. He has afforded Pennsylvania and Ohio a sample of what is to be expected from a Democratic Governor, who thinks himself better able to take care of the Constitution of the United States than the President and Congress; and they have been so little rejoiced by the spectacle that they have repudiated Gov. Seymour's disciples and imitators by majorities which, considering all the circumstances, are ludicrously large. The defeat that has befallen Vallandigham would be signal if he were an ordinary politician like Gov. Seymour himself, but considering that he has been for the last half year a Christian martyr, and, as we learn from the *Illustrated London News*, a scholar and a gentleman to boot, it is positively comical. For whatever of humiliation there is in it all, either for Messrs. Woodward and Vallandigham, Gov. Seymour is, undoubtedly, in a large measure responsible. His gallant efforts on behalf of the *habeas corpus*, and the State militia, and the policy of conciliation, are not only not appreciated by our sister States, but apparently disgust them so much that sooner than be burdened with Governors of his stamp, they are apparently ready to swallow any dose the Administration may prepare for them.

There is nothing that, as a general rule, we so dislike as impertinence, and all advice to persons in affliction or in disgrace from the lips of lookers-on, who have no share in their misfortunes, is apt to wear a little of the look of impertinence. But Gov. Seymour's case is so peculiarly distressing that we cannot afford to be bound by the considerations which ordinarily guide us, and we shall take the liberty, therefore, of seriously and respectfully counseling him to give up the *rôle* of champion of popular rights. Not even the aid of Mr. Nelson J. Waterbury's caustic and grammatical pen can enable him to fill it with either grace or effect. He has failed in it miserably, if not in his own opinion or that of Mr. Waterbury, in that of three-fourths of the public. The people of the United States have apparently come to the conclusion that, inasmuch as they had charge of their own liberties before Messrs. Seymour and Vallandigham saw the light, they will be able to take care of them long after both of these gentlemen have washed their hands of public affairs. This *may* prove that the public is an ass, or Messrs. Seymour and Vallandigham very wise men, but as it is the public after all that has to have its own way in the matter, where is the use of trying to make head against it? The very best thing, therefore, that our Governor can do during the remainder of his term, is to lend his best and heartiest aid in gratifying, what is now beyond all doubt or cavil the deepest and most heartfelt desire of the people of the North—and that is, to have the rebellion put down at any cost and at all hazards. All other things they consider of minor importance. They do not share Gov. Seymour's views on the *habeas corpus* and the Conscription act. They do not sympathize with conscripts who burn orphan asylums and cut throats. They do not want saviors of the Copperhead school. So the heroes and sages of that party will do well to let them alone, and do their own duties in a meek and humble spirit, in that state of life in which it has pleased God to call them—as the Catechism has it—without any attempts at either "ground or lofty tumbling."

Amusements.

Academy of Music.—The performance of "Rigoletto" on Saturday, at the Academy, furnished another opportunity for Miss Kellogg to win a genuine art triumph in the part of *Gilda*. The lady's voice has improved so vastly; her confidence before the public has increased so much, and her dramatic grasp of the character is thereby so much fuller than it used to be, that we can hardly compare the impersonation with any of Miss Kellogg's previous efforts. It exceeds in importance her thoroughly touching and beautiful ideal of *Linda*—than which we hardly remember to have seen anything superior on the American lyric stage. The applause on Saturday was unequal to the occasion; it is generally so at the *matinées*, but we are convinced that every intelligent person left the establishment with a distinct and, we hope, adequate idea of Miss Kellogg's admirable qualities as an artist of the highest rank. We trust that Mr. Maretzek will give us many opportunities of hearing her.

The celebrated opera of "Ernani" will be revived here to-night with a cast which has never been approached in excellence in America, including Mme. Medori, Signors Mazzoleni, Yppolito and Biachi. The attendance promises to be exceedingly brilliant, and we have no doubt that a triumph will be achieved. On Wednesday, Verdi's grand opera of "Macbeth" will be produced for the first time in America, with Medori as *Lady Macbeth*—a *rôle* in which European artists regard her as being heard and seen to the greatest advantage.

Wallack's Theatre.—The excellent drama of "Rosedale" continues to crowd this establishment to its greatest capacity. It remains on the bill for the whole of the week.

Winter Garden.—The heartiest and funniest actor now on the American stage—Mr. J. S. Clarke—announces an engagement here to-night. A new *piece de circonstance* called the "Russian Admiral," will be produced for the occasion; the immortal "Toodles" and the comedietta called "A Kiss in the Dark," are also on the bill. This will truly be a night of merriment.

Olympic.—Mrs. John Wood revives Brougham's famous burlesque of "Pocahontas" to-night. New scenery, costumes, jokes, &c., are provided for the occasion.

Niblo's Garden.—Mr. Forrest appears to-night as *Damon* in Banim's play of "Damon and Pythias;" to-morrow night Vestvali plays in "Games."

Barnum's Museum.—A new spectral drama called "Mariette; or the Warning of Death," will be produced here to-day. A very desirable and important addition to the liberal programme of the establishment will also be made, in the shape of a pantomime and ballet company, composed of the Sandford Brothers and Mlle. Medea. A ballet called "The Vinepickers of Como" will introduce this new feature of Mr. Barnum's insatiable enterprise.

Gottschalk's Concerts.—These admirable entertainments will commence to-night at Irving Hall. The programme is made up of *morceaux* that are almost entirely new—Mr. Gottschalk contributing several of his latest compositions. The following artists take part in the entertainment: Mr. Wm. Castle, Mr. S. Behrens, Mr. Harry Sanderson, Mr. Theodore Thomas, and a *débutante*, of whom report speaks highly—Miss Lucy Simons (pupil of Signor Muzio.)

Wollenhaupt Memorial Concert.—The arrangements for this mammoth entertainment are progressing in the most satisfactory manner. The 4th of November is the day selected for the concert, and so much kindly feeling is exhibited by the profession in regard to it, that we are almost justified in stating that every one who is at all eminent in the musical world has already volunteered for the occasion.

George Christy's Minstrels.—We refer with pleasure to the brilliant programme furnished by George Christy at his delightful establishment, opposite Niblo's. It is impossible to find a better Ethiopian entertainment in the City.

Theodore Thomas' Popular Concerts.—The first of Mr. Theodore Thomas' series of popular afternoon Concerts will take place at Irving Hall on Saturday afternoon. The programme is admirable. It contains a judicious admixture of classical and popular music, and can boast of the coöperation of Mr. Gottschalk, the eminent pianist.

Irving Hall.—Miss Kimberley will read Shakespeare's "Midsummer Night's Dream" here to-morrow night. Mendelssohn's superb music will be given, under the direction of Mr. Theodore Thomas.

Philadelphia.—Miss Western is playing "East Lynne" in the City of Brotherly Love. We notice with pleasure that Miss Rose Eytinge, a natural and charming *artiste*, whose proper sphere is the metropolis, has achieved a marked success in the embarrassing and unthankful *rôle* of *Barbara*. The lady even succeeded in winning a round of applause for that horribly hackneyed melody, "You'll Remember Me."

Mlle. Stella Bonheur's Concert.—Miss Stella Bonheur gave a concert at Irving Hall on Saturday evening. The young lady possesses a fine large voice which with due cultivation would place her in the first rank of resident artists. It is at present very unfinished, and the expression which she throws into it, is the result of an intelligent temperament rather than of artistic culture. Miss Bonheur was assisted by Mr. George Simpson, Mr. J. R. Thomas, Mr. J. Davenport Kerrison and Mr. J. G. Maeder.

The Park Theatre, (Brooklyn.)—Mr. Harrison in return for the liberal patronage afforded him by the people of Brooklyn, is doing his best for their entertainment by the constant production of novelties, and the introduction of new faces. The latest addition is Mr. J. E. Whiting, a son of the "old Park" favorite and brother to Mme. Lorini. The gentleman has a pleasing address, a good voice and a tenacious memory, three qualifications which together should go far toward making a finished actor. Mr. Whiting is decidedly a desirable acquisition to the Park force, and we anticipate his speedy promotion in the affectionate regard of the patrons of that elegant establishment. "Sweethearts and Wives," with Messrs. Andrews, Whiting and Lennox in the cast is on the bill for to-night, with the comedietta of "Dying for Love," as a fitting sequence. The "Serious Family" is also underlined.

NEWS FROM WASHINGTON.

OUR SPECIAL WASHINGTON DISPATCHES.

Washington, Sunday, Oct. 18.

NINE MILLIONS FOR EXEMPTION FROM THE DRAFT.

The receipts of money paid by drafted men now amounts to nine millions, which it is expected will be increased by one or two millions more. The whole of this sum is to be appropriated to recruiting under the new Proclamation of the President.

THE FEELING IN ENGLAND.

The Secretary of State is in good spirits over the recent change in English affairs. He does not impute it to fear or other unworthy motive, but says "old England is herself again."

MILITARY PERSONALS.

Brig.-Gen. Rufus King has resigned his military command and accepted the Mission to Rome. Col. Billy Wilson is here applying for authority to raise a brigade in New-York.

THE BENEFIT FOR THE SICK AND WOUNDED.

Charlotte Cushman's performance of Macbeth last night for the benefit of the Sanitary Commission, was a wonderful success. Grover's elegant theatre was crowded. The President and Mrs. Lincoln, the Secretaries of War and State and the Interior, Lord Lyons and members of the British Legation, Miss Chase, Gen. French, in a word everybody in Washington, eminent for position and patriotism, was present. The receipts were over two thousand dollars; the free use of the house, with all its accompanying expenses, was given by Mr. Grover to aid the fund.

DISPATCHES TO THE ASSOCIATED PRESS.

Washington, Saturday, Oct. 18.

The following is a copy of a letter from Mason to Jeff. Davis, and was found among the intercepted correspondence of the latter. It plainly shows the treasonable purposes of the writer at the time of its date:

Selma, near Winchester, Va., Sept. 30, 1856.

My Dear Sir: I have a letter from Wise, of the 27th, full of spirit. He says the Governments of North Carolina, South Carolina, and Louisiana, have already agreed to *rendezvous* at Raleigh, and others will—this in your *most private ear*. He says, further, that he had officially requested you to exchange with Virginia, on fair terms of difference, percussion for flint muskets. I don't know the usage or power of the Department in such cases, but if it can be done, *even* by liberal construction, I hope you will accede. Was there not an appropriation at the last session for converting flint into percussion arms? If so, would it not furnish good reason for extending such facilities to the States? Virginia probably has more arms than the other Southern States, and would divide in case of need. In a letter yesterday to a Committee in South Carolina, I gave it as my judgment, in the event of Fremont's election, the South should not pause, but proceed at once to "immediate, absolute, and *eternal* separation." So I am a candidate for the first halter.

Wise says his accounts from Philadelphia are cheering for Old Buck in Pennsylvania. I hope they be not delusive.

Vale et Salute,

(Signed) J. M. Mason.

Colonel Davis.

OUR FOREIGN RELATIONS.

It is positively asserted that the Russian fleet will extend its visit to Washington. The reception here will doubtless be cordial.

Now that the relations between the United States and Great Britain have assumed a more peaceful aspect, and are more likely to become additionally friendly, gentlemen connected with Government affairs express the hope that the citizens of our country will endeavor to strengthen, rather than weaken, the amicable feeling of the two nations.

However our relations with France may be regarded by the public, there is no reason to fear that any of the pending questions will lead to disagreeable results.

The Experimental Black Colony.

A telegraphic item of Saturday last contained the statement that the President's negro colony in Hayti had proved a complete failure, and that the 500 blacks sent there had in great part either died or fled off. In reference to the matter, a responsible party, just returned from Hayti, furnishes us the following notes:

To the Editor of the New-York Times:

A statement in the Washington telegraphic dispatch which appeared in Saturday's issue, is calculated to produce erroneous impressions. It is true that on arrival in Hayti, last Spring, a few deaths occurred among the emigrants, the result of sickness on board ship, owing to the protracted length of the voyage, but we learn from a gentleman just returned from the island, that the colony is in excellent health; not a single case of sickness having occurred for some time. The statement that some of the emigrants had "fled to more desirable localities," is equally erroneous; not a single case of such absence has occurred. It will be recollected that this colonization was undertaken by an association of several gentlemen here in order to assist the Government in carrying out its then avowed policy. It occurred at a time when refugees were crowding into the Northern States, utterly helpless, and seeking employment, and no more humane steps could have been taken. It was purely an experiment, tried with a limited number of emigrants, and was undertaken in the most liberal and humane way, and its success depended in a great degree upon the will and industrial energies of the blacks themselves. The Government of Hayti, in the most liberal manner, offered the land free of charge, and on the arrival of the emigrants, immediately passed upon them the act of naturalization, thereby placing them on the best footing and entitling them to all the civic and religious rights and protection accorded to their own citizens. These emigrants are perfectly free to leave the island or to remain, and their success will entirely depend upon their own industrial exertions. The friends of colonization only desire to remove from our soil such people of African descent as cannot find healthful employment here. At present things have changed, and the free negroes now in the Northern States cannot be in better hands than they now are, having the option to enter the military ranks or to procure agricultural employment under Government auspices.

OUR NEW-ORLEANS CORRESPONDENCE.

Military and Political—Matters in Texas—Affair on the Line of the Rio Grande—Union Operations.

Department of the Gulf,
New-Orleans, Saturday, Oct. 10, 1863.

I have had a favorable opportunity for two months past to see many people direct from Matamoras and Brownsville, who have spent more or less of the past Summer at these places. I have taken especial pains to inquire of them how much military force there has been on the Confederate side, and from the best information I can gather, there has never been all Summer five hundred men. One reliable person told me he was for an entire month every day in Brownsville, and that in all that time he did not see together more than a portion of a company at any time; in fact, only men enough to enforce the rebel Provost-Marshal's orders, nothing more; that the walls of Fort Brown have been, or were certainly, until a recent period, dismantled, and the guns sent off to Galveston. It is a source of constant astonishment to the Americans at the Rio Grande why a small force of United States troops are not sent to take possession of Brownsville. Once in Fort Brown, with a sufficient quantity of provisions, it would be impossible to take the place by any concentrated force the rebels could raise in Texas. Brownsville in our possession, the gateway to the Confederacy for all the contraband goods from England and Europe would be most effectually closed, and this would be a most telling blow on the Confederacy, a blow that would be felt with stunning effect at Richmond itself.

Up to the present time the French have made no attempt to land any troops at the mouth of the Rio Grande, nor have they even talked of bringing any into the interior to Matamoras. I believe but one French vessel has been in the harbor for the last three months, and there were none there in the middle of September. The French are said to be in Victoria intending to cut off Monterey and the country down to Matamoras. Juarez is at San Luis, doing all in his power to sustain himself.

Two thousand men going to Brazos Santiago, water seven and a half feet in the harbor, would land without opposition, and find a good road across to Brownsville, a distance of about forty miles. On the Mexican side of the river are more than three thousand Union refugees, mostly hardy Germans with their families. These men have been driven from their homes like wild beasts, and would, the moment a nucleus of a Union army arrived at Brownsville, flock to reinforce it. There are also many hundreds of men living in Texas like Indians, fleeing from the rebel conscription, who would also join the Union forces, and the two thousand men originally landed, would soon be a large force—eight thousand at least—and composed of men, so far as the Texans are concerned, who ask for nothing but to avenge their wrongs upon their enemies, for the catalogue of the world's crimes afford nothing so revolting as the treatment these Unionists of Texas have received from the rebel authorities. Now I would ask why waste so much on Galveston or Sabine Pass when Brownsville, the important place in the Gulf, lies waiting to fall into the possession of the Union forces—the achievement to result in the regeneration of the whole of Southern Texas—and open a fire in the rear of the rebels that would soon drive them out of the State, or at least render them powerless to do much to benefit the Confederacy.

In this connection let me say that my informant from Matamoras came by the way of Galveston and Sabine Pass, the latter place where we, comparatively a few days since, lost the gunboats *Clifton* and *Sachem and their splendid armaments*. Gen. Franklin, owing to the depth of water needed by his transports, in his attempt to get in the rear of the forts, only got possibly one unarmed transport near where he desired to land. The gunboats fought desperately on their way to certain destruction, for, unaided by an attacking land force, they could not stand up against the batteries brought against them from the shore.

The officers and crews of the *Clifton* and *Sachem* were in Galveston on the 17th of September, the officers in prison, and the crews forced to labor on the rebel fortifications. This information was received from a most reliable gentleman who succeeded in making his escape from Galveston to our fleet; the "soothing system" so far has not modified the rebel authorities any more in Galveston than it has elsewhere in the Confederacy, and it is most time that it ceased.

To show the commercial and political importance of taking possession of Brownsville, I will state that all the goods on English vessels brought to the mouth of the Rio Grande for the Confederate Government are consigned with the ship that carries them to Matamoras and the Mexican Government. These goods are selected in Liverpool, London and Manchester, by accredited agents of the Confederacy. The names of the principal agents are Justin McCarty, P. Edwards, and an Englishman named Attrill. Edwards and McCarty were captured on the *Peterhoff*, and released at Havana. Attrill has remained constantly in Liverpool. The goods thus selected in England by official Confederate agents are cleared professedly for Matamoras. The ship reaching the roadstead of the Rio Grande lands its cargo, that is, so much of it as is not positively contraband, in the day-time, on the Mexican shore at Bagdad. Arms, powder and all kinds of munitions of war are contraband in Mexico, and consequently, with the connivance of the Mexican Custom-house officers, their arms and munitions of war, are unloaded from the vessel *at night*, taken in lighters a short distance up the Rio Grande River, and landed on the Texas shore, from which place they are hauled direct to Brownsville, thus, never appearing on the books of the Mexican Custom-house. This is so much the case that it is mentioned as one of the regular occurrences of the trade at the mouth of the river. There is, in fact, not even an attempt made to conceal the contraband trade—the night is only used as a kind of protection of the Mexican officials, and not from any absolute necessity of concealing the transaction from the public gaze.

One of the ways the contraband trade is carried on is for merchants to have stores on both sides of the Rio Grande, as, for instance, the house of James Hale & Co., who have stores in Brownsville and Matamoras. Hale & Co. are now, and have been for a long time, since the rebellion I am informed, contracting with the Confederacy to furnish arms, munitions of war and subsistence, and are also agents for the Confederate officials now commanding the rebel forces in Western Texas, and are active in furnishing the rebels with all kinds of supplies. To this house, and similar ones, are the English ships which come from Liverpool or London under the patronage of the Confederate purchasing-agents in those cities consigned. Goods consigned from England to these two-faced houses, are of course sent to the Matamoras side of the river, but the whole transaction is a mere farce, as it is easier to take goods up the Mexican side of the river to Matamoras, and take them over to Brownsville, than it would be to take them on the Texas side direct to Brownsville. These houses having stores on both sides of the river manage to have all their Texas-boughtcotton kept on the Mexican side of the river, while they at the same time keep all their arms, powder, munitions of war, &c., on the Brownsville side.

It is notorious at Matamoras, that most of the cotton shipped from Brownsville over to Matamoras, and from there to Europe in English bottoms, goes to Confederate agents living in Europe, or goes to their creditors, to pay for the building of the gunboats and rams, such as the *Alabama*, *Florida*, and vessels now on the stocks in the various dockyards of Great Britain. In fact, not an English vessel arrives in the roadstead of the Rio Grande, that is not hailed at Brownsville with all the enthusiasm that could be called forth if she were a Confederate vessel, and these sympathizers are constantly threatening our citizens in Matamoras that, sooner or later, some English rebel privateer will arrive that will open the blockade, and drive every American vessel out of the harbor.

Americans are not allowed to land, under any circumstances, on the Texas side of the river, and their position is not always very pleasant on the Mexican side. The prevailing tone at Matamoras is secesh, and the most overbearing are the English agents of the contraband trade. The Mexican officials are in many instances making immense fortunes by favoring this contraband trade, and it is to their interest to encourage anything that way.

There was no effective blockade of the mouth of the Rio Grande up to the 1st of July, though the United States steamer *South Carolina*, Capt. Alden, arrived at the place as early as May last, and gave official notice of the blockade, allowing the vessels inside fifteen days to run out, and I believe at the same time allowed a few small craft to run in; but up to July, there was openly a most active commerce carried on between the English vessels in the roadstead and the Texas shore. Vessels loaded with cotton, coming from Galveston and carrying no flag, would run into the mouth of the Rio Grande, lie over night on the Mexican side of the river, come out the next morning with the Mexican flag flying, and Mexican papers, and run alongside of some English ship in the harbor and unload her cargo. In August, the harbor began to be visited by United States vessels. Then the cotton was hauled to Brownsville, carried over to Matamoras, and hauled or lightered down to Bagdad, and then lightered again on board of English vessels. The direct trade with the Texas shore stopped, and when our blockading vessels came into the roadstead and anchored, the English vessels unloading, if they saw our blockaders watching them too closely, would at times tie up tarpaulins or sails in such a manner that the United States officers could not see what was being taken ashore from the ships.

The American Consul at Matamoras, L. Pierce, Jr., is represented as a most efficient officer, and thoroughly patriotic. He is honest and firm in the administration of his official duties, and resists the thousand temptations with which he is surrounded to neglect his duty and make money. Merchandise coming from New Orleans or other United States ports, are under heavy bonds that their goods shall be entered strictly for consumption in Mexico; it is in the Consul's power to release these bonds by simply giving a certificate that the goods have been delivered in Mexico for Mexican consumption. Princely sums would be paid by unprincipled American shippers to Mr. Pierce, if he would accept a bribe, but he refuses and contents himself with his pitiful salary of $1,000 per annum, not enough in Matanzas to pay a fair board bill per annum. Nay, he does more than this, he distributes liberally of his small pay among destitute Union citizens, refugees from Texas, who come in his way. Truly the life of an honest consul in Matanzas is hard.

Rev. Mr. Milburn's Lecture at Irving Hall.

Rev. Wm. H. Milburn, the well-known blind preacher and orator, has commenced a course of Sunday evening lectures at Irving Hall, upon subjects connected with the early history of the Church, preceding and after the death of Christ. The lectures or sermons, as they may, perhaps, be more properly termed, are designed more particularly for the edification of young men and women. An association of young men called the "Irving Hall Association," has been formed, who have engaged the Hall for the Winter, and Mr. Milburn will preach regularly on each Sunday evening. The seats are free to all, the expenses being defrayed by collections and voluntary contributions. The services are to be of the most primitive and simple nature, and the lectures brief, pointed, moral and instructive. The enterprise is one in which a large number of our Christian young men of various denominations are enlisted, and it bids fair to be the most useful and popular religious movement which has taken place for a long time in this City. The second lecture of the course was delivered last evening before a very large and intelligent audience. The subject was "The Temptations of Christ." The various occasions of temptation in the life of Christ were described, the manner in which they were resisted, and the application which should be made of them to the temptations which beset young men at the present day. The discourse was replete with the fervid zeal, touches of eloquence, and graces of oratory, which characterize all the efforts of the reverend orator.

Broadway Bisected.

A RAILROAD TRACK LAID ACROSS AT WALKER-STREET.

Church-goers and others who yesterday passed along Broadway, below Canal-street, were surprised by something unusual in that thoroughfare, especially for Sunday. From early morning until near dark a gang of several hundred men were engaged in tearing up the pavement, digging trenches and laying down a railroad track across Broadway in Walker-street. At noon Broadway was blockaded from White to Lispenard-street, and Walker-street was in the same condition from Church-street to Cortlandt-alley. At evening Broadway at that place presented its usual appearance, the track having been laid and covered with gravel in such a manner that no passer-by would suspect that the rails were lodged across our fashionable avenue. This is the first track of the gridiron road that has been laid across Broadway.

The Municipal Banquet.

The Municipal Banquet is given to the Russian Admiral and officers, this evening at the Astor House. The number of guests will be about three hundred. The different foreign Ministers have been invited, as have the French Admiral and his officers. In view of the limited number, the Committee have had a delicate duty to perform in the matter of invitations to our celebrities, but have so managed in this respect, as to give to the banquet an official character. Mayor Opdyke will preside. Gov. Seymour is expected, and some representative of the General Government will be present.

THE NEW POSTAL CURRENCY.—The wretched new Postal Currency, of which specimens have begun to appear here, was gotten up in Washington City; and none of our New-York artists or artisans are responsible for it. The entire work of designing, engraving and printing the notes was done in the Department at Washington—which fact is recorded in a line at the bottom of the notes themselves. We hope it will not be allowed to go into circulation. We could better endure our present dirty slips a month or two longer than the substitution of such trash,—if the notes we have seen are specimens of those that remain behind.

AGAIN NEW TESTIMONY.

READ.

HARLEM, July 30, 1863.

I have been deaf for over TWENTY-FIVE YEARS, and Dr. VON EISENBERG operated on both of my ears without the slightest pain—a thing that I could not believe could be done. I now *hear* well, and feel as I never felt for the last twenty years. The dexterity and skill with which the operation was performed evince the highest practical ability. I *hear perfectly.* It is now over a month since the operation, and I continue to feel as well as ever.

CATARRH CURED.

NEW-YORK, Aug. 23, 1863.

I have been suffering for the last three years from a severe Catarrh, with a continual dullness in my head, a tightness across my chest, a weight over my eyes, which were weak, watery and very painful. My nostrils were continually obstructed with a pouring of fluid. I have had frequent sneezing, hoarseness of my voice, generally attended with spitting, often with a fullness of my throat, together with a soreness and a dropping. Dr. VON EISENBERG has cured me of all these disagreeable sufferings. I now feel a new life. The treatment of Dr. VON EISENBERG is as skillful as it is successful; it is impossible to overrate the benefit I have received at his hands. I heartily recommend any one suffering like myself to place themselves under Dr. VON EISENBERG'S care, with a certainty of being *speedily* cured. I give this with gratitude and pleasure. I cannot forbear again saying that my voice, which was hoarse and thick when I applied to Dr. VON EISENBERG, is now clear and good; indeed, I feel abundantly satisfied.

JAMES LITTLE,
No. 245 7th-st., New-York.

NEW-YORK, Sept. 8.

I have been suffering for years past from a severe Catarrh, with a great heaviness over my eyes, with a severe depression, great uneasiness, and pain in my head, great difficulty in breathing, and a continual accumulation in my nostrils, which gave me restless nights for several years. I have consulted several physicians, who pronounced me to be consumptive. What I suffered for so long a time is indescribable. My system was entirely disarranged and greatly debilitated. I not only felt weak, but I had a cloud continually before my eyes, and my ears were so affected that I was threatened with a total loss of hearing. I must say, I think, I was guided by Providence to come to Dr Von Eisenberg, who not only cured me of my Catarrh by removing an astonishing quantity of disagreeable matter from my head, but he restored me to perfect health, a blessing I have not enjoyed for many years. Now I enjoy a good night's rest, and pursue my business with comfort. I must acknowledge that Dr. Von Eisenberg's mild and scientific treatment for Catarrh deserves the highest commendation, as the principle which directs his system of curing Catarrh is such as to render success certain.

JAMES FURLONG, No. 556 2d-av.

NO. 134 ALLEN-ST., NEW-YORK, Feb. 9, 1863.

I have been completely deaf in one ear, and partially so in the other, for above seventeen years, with a disagreeable discharge from both ears, combined with continual rumbling noise in the head, for which I have been treated by a most eminent practitioner in the City without the slightest relief.

I consulted Dr. Von Eisenberg, but I must candidly say that I had no faith in his success when I did so. It is, therefore, due to Dr. Von Eisenberg to acknowledge that I am entirely cured; also, that he displayed that skill and knowledge which have procured for him such an unrivaled reputation. As I have had an opportunity of comparing his mode of treatment with that of others, I can truly state that it is not only superior, but the principles which direct his mode of restoring the hearing are, in my opinion, certain.

JOHN TAYLOR.

NEW-YORK, July 19, 1862.

This certifies that my mother has been for some time afflicted with partial deafness, suffering from pain, and rumbling noises in the head, together with other indications of a *total loss of hearing.* Dr. Von Eisenberg removed from her ears a great quantity of matter, together with coagulated blood, relieving her instantaneously, and all without pain. It is with grateful thanks that I give this testimony to his skill.

CARROLL J. POST, No. 28 South-st.

SIGHT RESTORED.

JUNE 25, 1863.

My daughter brought me to Dr. VON EISENBERG almost completely blind in both eyes. I could not bear the pain nor the light. I am completely cured by Dr. VON EISENBERG, and called now to express my gratitude to the Doctor for his skill and unremitting attention, by which I recovered one of the most precious senses to me after being deprived of it for four years. It is only due to Dr. VON EISENBERG to state that I have tried several physicians in vain. I shall be happy to bear personal testimony to Dr. VON EISENBERG'S unrivaled success to any lady or gentleman who will call on me.

CHRONIC CATARRH CURED.
READ.

NEW-YORK, March 20, 1863.

"This is to certify, that I have suffered from very severe CHRONIC CATARRH, with a dull heaviness in the head. I felt my nose completely stopped up accompanied by continual soreness of the throat, the chills stealing over me with occasional hot flushes, a great tightness of the chest and pain, so much so, that every one thought it was consumption. Having heard of the great cures performed by Dr. Von Eisenberg, I consulted him with but little hope of a cure. I am now happy to be enabled to add my testimonial to the great number already in the Doctor's possession, as to his scientific and successful mode of treatment, as he has shown in my case that skill and knowledge which have procured for him so great a reputation. I am so entirely restored to perfect health that I do most sincerely recommend all sufferers from CHRONIC CATARRH and SORE THROAT to apply at once to Dr. Von Eisenberg with a certainty of being cured."

DR. VON EISENBERG'S OFFICE
NO. 816 BROADWAY, NEW-YORK.

From the army hospital—the bloody battle field—the mansion of the rich and humble abode of the poor—from the office and the sacred desk—from the mountain top, distant valleys and far-off islands of the ocean—from every nook and corner of the civilized world—is pouring in the evidence of the astonishing effects of DRAKE'S PLANTATION BITTERS. Thousands upon thousands of letters like the following may be seen at our office.

REEDSBURY, Wis., Sept. 16, 1863.

* * * * I have been in the army hospitals fourteen months—speechless and nearly dead. At Alton, Ill., they gave me a bottle of Plantation Bitters. * * * Three bottles restored my speech and cured me. * * *

C. H. FLAUTE.

SOUTH WARSAW, Ohio, July 28, 1863.

* * * One young man, who had been sick and not out of the house for two years with Scrofula and Erysipelas, after paying the doctors over $150 without benefit, has been cured by ten bottles of your Bitters. * * *

EDWARD WOUNALL.

The following is from the Manager of the Union Home School for the Children of Volunteers:

HAVEMEYER MANSION, 57TH-ST.,
NEW-YORK, Aug. 2, 1863.

DR. DRAKE: Your wonderful Plantation Bitters have been given to some of our little children suffering from weakness and weak lungs with most happy effect. One little girl, in particular, with pains in the head, loss of appetite, and daily wasting consumption, on whom all medical skill had been exhausted, has been entirely restored. We commenced with but a teaspoonful of Bitters a day. Her appetite increased; strength and health followed. * * *

Respectfully, MRS. O. M. DEVOE.

* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.

Rev. W. H. WAGGONER, Madrid, N. Y.

* * * Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use. Thy friend,

ASA CURRIN, Philadelphia, Penn.

* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.

Rev. J. S. CATHORN, Rochester, N. Y.

* * * Send us twenty-four dozen more of your Plantation Bitters, the popularity of which are daily increasing with the guests of our house.

SYKES, CHADWICK & CO.,
Proprietors of Willard's Hotel, Washington, D. C.

* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.

G. W. D. ANDREWS,
Superintendent Soldiers' Home, Cincinnati, Ohio.

* * * The Plantation Bitters have cured me of liver complaint, of which I was laid up prostrate and had to abandon my business.

H. B. KINGSLEY, Cleveland, Ohio.

* * * The Plantation Bitters have cured me of a derangement of the kidneys and urinary organs that has distressed me for years. It acts like a charm.

C. C. MOORE,
Agent for Colgate & Co., No. 254 Broadway.
&c., &c., &c., &c., &c. &c.

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya Bark, Wintergreen, Sassafras, Roots, Herbs, &c., all preserved in perfectly pure St. Croix Rum.

S. T.—1860.—X.

Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try them.

They are recommended by the highest medical authorities, and are warranted to produce an *immediate* beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

NOTICE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon, is a swindler and imposter. We only put it up in our log-cabin bottles. Beware of bottles refilled with imitation deleterious stuff, for which several persons are already in prison. See that every bottle has our United States Stamp over the cork, and signature on steel plate side labels.

Sold by respectable dealers throughout the habitable globe.

"Unquestionably the best living writer on Political Economy."—Prof. BOWEN.

D. APPLETON & CO.,
Nos. 443 and 445 Broadway,
PUBLISH THIS DAY:
PRINCIPLES OF POLITICAL ECONOMY
WITH
SOME OF THEIR APPLICATIONS
TO
SOCIAL PHILOSOPHY.
BY JOHN STUART MILL.
2 vols., 8vo. Printed on tinted paper. Cloth, $3.

That there has heretofore been no American edition of a work held in such high estimation may, perhaps, be owing in part to the fact that since its publication our politics have hinged on an engrossing question, which belongs rather to the domain of humanitarian philosophy than to that of political economy, and partly to the facility with which a European work not requiring translation can be supplied to American readers from the original publishers. The present state of our currency goes far to remove both of these obstacles to the success of an American edition. The most important economic discussions which have ever taken place in Great Britain grew out of the condition into which that country was brought by its protracted struggle against NAPOLEON. Our politics are likely to pass through a similar phase, in which we shall need all the light shed upon economic questions by the most advanced science.

In the whole range of extant authorship on political economy, there is no writer except Adam Smith with whom John Stuart Mill can, without injustice, be compared. In originality, Adam Smith, as being the acknowledged father of the science, takes the precedence, as he does also in exuberance of apt illustration. But in rectitude of understanding, clearness and sagacity, Mill is fully his peer; in precision of method, range of topics, and adaptation to the present state of society, he is altogether his superior. The "Wealth of Nations" now belongs, indeed, rather to the history of the science than to its exposition. But the "Principles of Political Economy" is an orderly, symmetrical and lucid exposition of the science in its present advanced state. In extent of information, breadth of treatment, pertinence of fresh illustration, and accommodation to the present wants of the statesman, the merchant and the social philosopher, this work is unrivaled. It is written in a luminous and smooth, yet clear-cut style; and there is diffused over it a soft atmosphere of feeling, derived from the author's unaffected humanity and enlightened interest in the welfare of the masses.

TROPICAL BALSAM.

PREPARED BY CARRENO BROS. & CO.

This celebrated and unparalleled medicine, composed only of salutiferous and purifying vegetables, has been for many years past and is still the great popular remedy of South America for the infallible cure of phthisis and other diseases of the chest; affections resulting from falls, blows, or bruises, however severe; hemorrhages, wounds, contusions, ulcers, burns, headache, toothache, and several other diseases.

This most valuable medicine has been recently introduced in this country, and both its internal and external use has in all cases produced the most wonderfully successful results. The following are some of the many letters already received, testifying to the efficiency of this Balsam. We shall continue publishing like documents:

"NEW-YORK, Oct. 3, 1863.

E. S. Dickinson, Esq., Superintendent of the Second-av. Railroad Company:

DEAR SIR: As you have tried in many cases, both on men and horses, the "Tropical Balsam" we prepare and are now introducing in this country, we beg you will be pleased to state at foot if it is true: First, that one of your men, a blacksmith, who had been long suffering from a very severe ulcer on one of his fingers, got entirely cured in a very few days with the only use of the said Balsam; Secondly, that one of the drivers and a boy, both employed in your Company, had also been suffering from very painful whitlows, (felons,) and got completely cured with the Balsam, the former in four days and the latter in three days. Thirdly, that another man who was employed in the Company, and who it was generally supposed would lose his nail and toe from the effect of a horse treading on his foot, was dressed with the Balsam and perfectly cured in six days; and fourthly, that the same Balsam has also been used at the depot on several horses suffering from "interfering" and old ulcers, and has in all cases proved most successful. With high consideration, we are, Sir, your most obedient servants,

CARRENO BROS. & CO."

"NEW-YORK, Oct. 5, 1863.

Messrs. Carreño Bros. & Co.:

GENTS.: In reply to your note, I have to say that the above statements are correct and true, and I consider the Tropical Balsam a very valuable medicine for both men and horses; we have it in use upon our horses at the depot. Respectfully, E. S. DICKINSON."

"GRAMERCY PARK HOUSE, NEW-YORK, Oct. 9, 1863.

Messrs. Carreño, Brothers & Co.:

GENTLEMEN: In reply to your favor of this date, and following the same order in which your questions stand, I have to say: First, I know, both by reputation and from personal experience, the "Tropical Balsam" you prepare. Secondly, having myself, about a month and a half ago, been taken ill with a severe cold, attended with cough, which, owing to my having neglected it at first, was so considerably aggravated that two or three weeks afterward I became quite alarmed about it, I made up my mind to take the "Tropical Balsam," from the confidence I placed in the reputation it enjoys, and in your good faith. I therefore took a teaspoonful of the Balsam in the morning and another in the evening during one single day; and two days afterward, without having used anything else, and to my surprise I was perfectly recovered, and ever since I feel quite well. Your most obedient servant,

RAFAEL DE POMBO."

"NEW-YORK, Oct. 9, 1863.

Messrs. Carreño Bros. & Co.:

GENTLEMEN: This is to certify that I had one of my hands terribly bruised by having it caught in machinery as I was backing in our truck in the house of Hook and Ladder Company No. 3. My hand became swollen to an enormous extent, and was very painful. I was recommended by a friend to try your valuable Tropical Balsam; after a great deal of suffering and trying a number of remedies, I procured a bottle of your Balsam; I applied it and to my astonishment in three hours, both the swelling and pain subsided; in the course of two days I was entirely well and able to resume my business, and do fire duty. I consider the Tropical Balsam the most valuable medicine in existence and can truly recommend it to all, and would not be without it if the price was $5 per bottle. You are at liberty to publish the above at your pleasure. Yours truly,

REUBEN G. DREW, No. 26 Carmine-st., New-York."

MEDICAL.

PRIVATE DISEASES CURED IN THE shortest possible time, by Dr. WARD & CO., No. 50 Lispenard-st., near Broadway, without the use of Mercury, loss of time or change of diet. Dr. WARD, from the hospitals of London, Paris and Edinburgh, is the discoverer of the only certain and reliable remedies for diseases of a private character. In 28 years' practice he has cured more cases of Secret Diseases and Wrong Treatment than all others combined. I can and will cure you in less time and expense than any one can or will, and those who have been robbed of their money and health, call: it will take but little money and time to restore you. If you have been unfortunate, call at once. By his special experience in this much neglected branch of medical science, he is enabled to guarantee a cure in the most complicated cases. Recent cases of Gonorrhea or Syphilis cured in a few days, without change of diet or hindrance from business. Secondary Syphilis—the last vestige eradicated without the use of Mercury. Involuntary emissions stopped in a short time. Sufferers from Impotency, or loss of sexual power, restored to full vigor in a few weeks. Permanently and speedily cured by a new treatment. Persons at a distance failing to receive prompt treatment elsewhere, may get a permanent cure effected by writing a full diagnosis of their case, addressed to Dr. WARD, No. 50 Lispenard-st., the only place. Call, send for a circular, or write.

SURE CURE—BY DR. POWERS, SUCCESSfully consulted with Dr. WARD, No. 50 Lispenard-st. Conducted on the plan of the Hospital des Veneriens, Paris, where those afflicted with any form of private disease can receive prompt treatment, without risk or exposure, viz.: Syphilis, gonorrhœa, gleet, strictures, ulcers, tumors, cancers, secondary and constitutional syphilis, diseases of the kidneys, &c., &c. Thirty years of extensive practice, exclusively devoted to the treatment of those complaints enable us to effect cures in cases where others of less experience have failed. Dr. Powers' Essence of Life restores the vigor of youth in four weeks. This marvelous agent restores manhood to the most shattered constitution—physical disqualifications, impediments to marriage, thereby speedily cured. The men to consult, Drs. Ward and Powers, the champions and kings of venereal diseases possessing the most certain, speedy and only effectual remedies in the world, guarantee a perfect cure, or no charge, in from one to three days. Established in 1840. Those who have used their preventives are never without. Send for a circular. To Ladies.—Dr. Powers' Periodical Drops are a safe and certain remedy for monthly irregularities. The above remedies sent by mail. The afflicted should read their circular. Postage free, on receipt of a stamp. Cures warranted.

DR. POWERS' PERIODICAL DROPS are designed for both married and single ladies, and are the very best thing known for the purpose, as they will bring on the monthly sickness in cases of obstruction from any cause, and after all other remedies of the kind have been tried in vain. Expressly for obstinate cases. Warranted as represented in every respect, or the price will be refunded. ☞ Beware of imitations! Purchase directly of Dr. POWERS, 50 Lispenard-st., New-York.

DR. HUNTER'S RED DROP RESTORES the vigor of youth in four days. Restores manhood to the most shattered system. No. 3 Division-st., New-York, the only place. Beware of bogus Dr. Hunters. Eight separate rooms and a private entrance.

SOMETHING FOR EVERY LADY.—DR. WARD'S Great Female Benefactor or Golden Regulating Pills. Office No. 50 Lispenard-st., near Broadway, where Dr. WARD can be consulted, confidentially, day and evening.

ADVICE TO LADIES.—IN ALL CASES where infallible medicines are desired, or mode of treatment that never fails, call upon Dr. A. M. MAURICEAU, Professor of diseases of Women, author of "The Married Woman's Private Medical Companion," who treats female complaints exclusively. Office 129 Liberty-st.

PRIVATE CONSULTATION.—DR. HUNTER has for thirty years confined his attention to diseases of a certain class, in which he has treated no less than fifty thousand cases without an instance of failure. His great remedy, HUNTER'S RED DROP, cures certain diseases when regular treatment and all other remedies fail; cures without dieting or restriction in the habits of the patient; cures without the disgusting and sickening effects of all other remedies; cures in new cases in less than six hours; cures without the dreadful consequent effects of mercury, but possesses the peculiarly valuable property of annihilating the rank and poisonous taint that the blood is sure to absorb unless his remedy is used. That is what he claims for it, and what no other will accomplish. Its value in this respect has become so well known, that scientific men in every department of medical knowledge begin to appreciate it, for hardly a week passes that he is not consulted by druggists, chemists and physicians in regard to some pitiful patient who has exhausted the whole field of the faculty, and still the disease will appear. Its popularity is so great that there is not a quack doctor in the City that has not attacked it, and when they find their lies are not so easily swallowed, they then pretend that they can make it. It is $1 a vial, and cannot be obtained genuine anywhere but at the old office, No. 3 Division-st. Book for 15 three-cent stamps, 300 pages, 100 colored illustrations. The best work out.

MONDAY, Oct. 19—A. M.

The Foreign Trade of the past week was fairly active in the way of Import entries, though the sales of Foreign merchandise are less spirited than earlier in the month and through September. The Customs Duties were $1,259,000 as against $1,671,000 the week before. The Export clearances, both in Produce and Specie, fall below the corresponding week last October. The Specie export is only one-half the large shipment of the week before. And although the price of Gold was advanced by speculation on the effect of that shipment and of various adverse military rumors, the price returned to the figure of Saturday week. The Money market worked steady through the week, and United States Currency was in good supply both in Bank and at the Treasury. No call was made upon the Banks by the Assistant Treasurer, owing to his large receipts for the Popular Loan, but on Saturday it was arranged that another instalment of $3,500,000 on the late negotiation would be paid in to-day, in anticipation of some heavy disbursements notified from Washington to be made in a few days.

The Stock Market has ruled with much steadiness, with a single exception elsewhere noticed, on the Railway list, and is higher by 1 ₩ cent. on the Government Stocks of the old issues, which go up as the time approaches for closing the Popular Loan at par and the January interest in Gold matures.

The price of Gold further declined 3@3½ ₩ cent. Saturday, making the fall since Thursday night 7 ₩ cent., and leaving the price much the same as at the close of Saturday week. The sales early in the forenoon were at 149½@150 ₩ cent. Soon after the first Board adjourned, the price rallied to 151@151½ ₩ cent. on rumors of a rebel raid into Maryland; but at 2 o'clock, on the Street and also at the Second Board, the price was 149½@149¾ ₩ cent., and soon after the adjournment, 149 ₩ cent. The very last quotation for Exchange on London per the day's steamer was 165@166 ₩ cent. In the afternoon there was not much business, and but few efforts to make a price. The figures are 164@165 ₩ cent. The shipments of Gold by Saturday's steamers were only $669,000, although as much as two millions were previously rumored among the Gold speculators.

On the Stock Exchange the chief interest of the day's speculation was in Harlem old Shares. The registered sales of the day at the regular Boards amount to 17,000 Shares, and for the week, 68,000 Shares. Including the Public Board and Street sales, there is no question that the entire capital of *eighty-five thousand Shares* changed hands during the week. The extreme difference in price is between 136 and 86 ₩ cent, *being fifty per cent.* between Saturday week and the lowest sales to-day. The price at the Second Board recovered to 93 ₩ cent. Altogether, the rapid fall in the Stock in October is even more remarkable (though scarcely so surprising) than the extraordinary rise in July and August to nearly double the present figures. Nothing new transpires as to the cause of the great fall. The rumor, to which we referred a day or two ago, of an adverse opinion from Judge HOGEBOOM on the injunction obtained by the Consolidated Stage Company against the Broadway track, is assumed to be a fact on the Street. But even this may not necessarily prevent an early conjunction between the hostile parties to the suit, if the sufficient "consideration" be offered to the friends of the Stage Company either directly in cash, or in the shape of a guaranteed "operation" in Harlem. In the other Railways, the changes from Friday were not important. There was rather more firmness on the list generally at the early Board, but the improvement was not marked at the close of the day.

At 4 o'clock the following prices were made as compared with Friday night; the market steady; Hudson firmer, and Harlem not so strong as at the Second Board:

A merchant friend requests us to bring down our Gold Summary as nearly to the present date as practicable, from the close of November, 1860, when our troubles with the South began. He says that the belief still obtains with some of our old merchants, though he is not of the number, that the country is poorer instead of richer in the precious metals than when the war began, by reason of the export drain to Europe. The actual figunes on the subject, which we have several times collected for this column, admit of no question whatever. The gain both at Bank the great cities and among the people of the loyal Atlantic and Pacific States is large and undoubted. And there would be no confusion of opinion or friendly disputes among business men to be settled if it were not so often forgotten, that for the first year or thirteen months of the war, we were large importers of Gold *from* instead of exporters *to* Europe. However, we take pleasure in complying with the request of our friend by a brief summary of the 10th inst., to which date the last Bank returns of the Atlantic cities were made up.

1. The minimum basis of Gold and Silver in the loyal States of the Union, Atlantic, Western and Pacific, on the 1st of December, 1860, was $250,000,000
2. Of this the Banks and Treasury in the Atlantic cities held. $29,131,000
   Other Banks and the people. 220,869,000—250,000,000
3. This basis has since been increased by production in excess of the net sum total exported from Dec. 1, 1860, to Oct. 10, 1863, to $298,311,000
4. Of this the Banks and Treasury in the Atlantic cities held. $49,959,000
   And other Banks and the People ..... 248,352,000—298,311,000
5. The whole increase is thus made $48,311,000
6. And this excess is divided:
   To the Banks and Treasury. $20,828,000
   To the People, &c ..... 17,483,000—48,311,000

The annual production of the Pacific States is not less than $50,000,000 per annum. The average annual shipments from the port of San Francisco amount to about $42,000,000. There is a plus, therefore, of $8,000,000 per annum for other employment and for distribution among the people, chiefly in the Pacific States, where the whole currency continues to be of Gold and Silver. This calculation would give:

1. As the production of 2 years and 10 months, or from Dec. 1, 1860, to Oct. 1, 1860 ..... $141,667,000
2. And as shipped from San Francisco to all points 119,000,000
   Leaving gain on the Pacific $22,667,000
3. Of the shipments from San Francisco, New-York has received since Dec. 1, 1860, the sum total of $71,419,000
5. And from Foreign States direct and vid Boston, for New-York account 55,286,000
   Together $126,705,000
6. The exports of Gold and Silver from New-York, from Dec. 1860, to and including Saturday, Oct. 10, 1863, were 101,061,000
   Excess of receipts at New-York $25,644,000
   Add excess on the Pacific 22,668,000
   Total gain as above $48,311,000

As the initial point in the above tables, we have taken the lowest estimate at the beginning of the war—the one admitted by the London *Times* as being fair for its own theory that the United States are soon to be exhausted—although we have reason to believe that it is too low, when the Gold in circulation in the Pacific States and Territories at that time is fairly taken into account. A careful estimate made some months ago gave for the Atlantic States alone on 1st December, 1860, $222,000,000, and certainly $28,000,000 would be too little to add for the Pacific States at the same time.

If the Banks of the great cities, as well as the Treasury and the People, had not been gainers by the Specie movement thus far through the war, the general gain to the country might, perhaps, be questioned as too large, and the bases of our calculation disputed. But the Bank and Sub-Treasury returns confirm the fact that more than one-half the accumulation since the war remains in the vaults of New-York, Philadelphia and Boston. We give the figures:

	Dec. 1, 1860.	Oct. 10, 1863.
New-York Banks	$18,541,762	$29,927,281
New-York Sub-Treasury	3,702,751	8,000,000*
Total in New-York	$22,244,513	$37,927,281
Philadelphia Banks	3,333,827	4,239,551
Boston Banks	3,553,000	7,792,000
Total	$29,131,340	$49,958,832
*Sub-Treasury balance, Oct. 10, 1863		$29,327,108
In United States Legal-Tender, &c., say		21,327,108
Gold balance as above		$8,000,000

The National Banks.

From the New-York Shipping List, Oct. 17.

The fulminations against the National Banking Law, which have recently appeared in circular form in this City, however much they may have gratified the steadfast and uncompromising opponents of the great revolution in the Banking system of the country, which has been inaugurated under its provisions, are not generally indorsed even in this City, where the necessity for a remodeling of the Banking system is less appreciated than anywhere else; while at the West, public opinion has already uttered a strong protest against all such denunciations of a law of Congress which is calculated to confer such inestimable blessings upon the people at large. The fact is palpable and incontrovertible, that Secretary CHASE's Banking system is in full accord with public opinion and fully indorsed by the people everywhere; and in the West this is particularly the case, even the bitterest enemies of the Administration expressing a decided preference for the "greenbacks" over the paper promises of even the most favored local institutions. The fact that the new Banking Law provides for a uniform currency, at once commended it to popular favor; and as the people have learned by experience the benefits to be derived from such a currency, they are not inclined to relinquish it for the sake of gratifying any local prejudice against it, however powerful. This is amply demonstrated by the fact that upwards of *one hundred* Banks have already organized under the provisions of the new law, and that applications continue to be received at Washington, from nearly all sections of the country at present under Federal control. An intelligent commercial paper, published in Cincinnati, in speaking of the periodical denunciations of the National Banking system, says that its opponents ought to "come West and see how the masses turn up their noses when the notes of even these great Metropolitan Banks are offered to them and the eagerness and willingness with which they take the 'greenbacks;' and adds that "the fact is plain and cannot be misunderstood, that the people are with Mr. CHASE and his Banking system;" and that "it has made him famous with the people." The utter futility of longer "kicking against the pricks" is abundantly manifest, and the few uneasy mortals who have arrayed themselves in opposition to the deservedly popular National Banking law enacted by the last Congress, may console themselves with the reflection that the popular verdict cannot be reversed by their denunciatory effusions, however plausible their arguments. The success of the National Banks is distinctly foreshadowed.

BROOKLYN NEWS.

BROOKLYN POLITICIANS.—The nominations of the different parties in this city will be completed during this week. Those Democrats who are dissatisfied with the city and county tickets as nominated by the Democratic Conventions, are making arrangements to hold a Convention on Tuesday evening, when they will present a new set of candidates for the public vote. Hon. MARTIN KALFLEISCH will undoubtedly be the candidate for Mayor, and Hon. SAMUEL GARRISON for County Judge. The Republican City Convention will meet on the same evening, and an effort is being made to put a straight ticket in the field, now that there is a certainty that two Democratic tickets will be run. The Democratic Ward Conventions meet to-night to nominate Aldermen.

PRIZEFIGHTERS DISPERSED BY THE POLICE.—A prize-fight was to have taken place on the Excelsior Base Ball Ground, near the foot of Court-street, yesterday morning. The principals were JAMES LEONARD and JOHN HUGHES. A large party arrived upon the ground about 4 o'clock, A. M., and succeeded in placing the stakes and arranging the ropes. The parties were just about stripping, when a few policemen were seen at a distance, which had the effect of dispersing them. They succeeded in getting away with all they had brought with them. One man refused to run, and was arrested and locked up. Justice CALLAHAN released him on bail in the afternoon.

GAMBLING HOUSE BROKEN UP.—Capt. SMITH, of the Forty-first Precinct Police, with a *posse* of men, made a descent upon a gambling house at No. 100 Orange-street, between 1 and 2 o'clock yesterday morning, and arrested the proprietor, HENRY UHLER, and the following parties, who were busily engaged in the game of faro: John J. Watts, S. Millard, Geo. Davis, Abraham Duryea, Richard Johnson, John E. Shepherd, George Kahtor, Henry Casablanca, Joseph Edwards, Daniel McKedge, Robert Cotrell, Francis Cotrell. The faro table, cards, dealing box, checks, &c., were taken in charge by the police. The parties were released on bail by Justice ADAMS.

BROOKLYN CITY MORTALITY.—The total number of deaths in this city last week was 177, of which 26 were men, 45 women and 106 children. The causes are thus generalized: zymotic diseases, 17; nervous system, 28; heart and blood vessels, 8; respiratory organs, 59, (of which 9 were of consumption, 1 of croup, and 13 of diphtheria;) digestive organs, 38; urinary organs, 3; generative organs, 2; bones and joints, 1; violence, 1; injury, 3; still-born, 10; old age, 4; drowned, 3. Natives of the United States, 141; Ireland, 26; Germany, 3; England, 4; unknown, 3.

DIED IN A STABLE.—An unfortunate man named PATRICK KELLY, who was laboring under illness, entered a stable at No. 73 East Baltic-street on Saturday night, and laid down on the straw. He was soon after discovered, when it was found that he was in a dying condition. Arrangements were made to send him to the hospital, but he expired before he could be removed. Coroner NORRIS had the body conveyed to the dead-house. Deceased was about 50 years old.

APPROPRIATING A LETTER CONTAINING MONEY.—Officer OATS, of the Forty-third Precinct Police, arrested MATILDA MERRIT, upon a warrant, on Saturday, wherein she is charged with having obtained a letter directed to MARY MURRAY, by falsely representing that such was her name. The letter contained $10, which, as alleged, she appropriated to her own use. The accused was held to answer.

THE KINGS COUNTY COURTS.—The Circuit Court stands adjourned until the second Monday of November, 1863, at 10 o'clock, A. M. The October calendar will be resumed on that day, with cases numbered as follows: Nos. 24, 61, 62, 63, 65, 66, 67, 68, 69, 70, 82, 73, 74, 75, 77, 78, 79, 45, 80, 81. After these cases are disposed of the November calendar will be taken up.

PASSING COUNTERFEIT BILLS.—JAMES E. SHAAF and FRANK CLINTON were arrested on Saturday for passing counterfeit $5 bills on the State Bank of Newark, N. J., at the store of J. A. KIPP, in Court-street. They were held for a hearing.

Williamsburgh.

DECLINED.—Mr. JOSEPH R. THOMAS, the Republican candidate for Assembly from the Fifth District, Kings county, has resigned. Hon. SAMUEL T. MADDOX, the present Provost-Marshal, is talked of as a candidate.

W. D. W. WEEKS.

I have been suffering for some time with noise in my head and deafness. Having applied to Dr. Lighthill, I have great pleasure in saying that he has completely relieved me, so that now I can hear as well as ever, and am not troubled with the noise in my head.

I may also mention that a young man named Henry Laws, staying with me, was also afflicted in a similar manner, and Dr. Lighthill was equally successful in his case. JOHN MURDOCK, No. 197 Fulton-st.
BROOKLYN, Jan. 2, 1863.

FROM F. L. CAGWIN, ESQ.,
PRESIDENT CITY BANK, JOLIET, ILL.

Dr. Lighthill:

DEAR SIR: It affords me the greatest satisfaction to be able to inform you that I am still improving, and have the highest hopes that my ear will be entirely well by the time you at first mentioned it would take to effect a cure. I can say that I am truly thankful to the kind Providence which directed me to you. Since the first few days' use of your prescription, my ear has improved, and almost at once. I was relieved from a very depressed state of feeling and an almost intolerable case, to an elastic and hopeful state of mind. What Dr. John Nott replied to me as his experience, has been mine so far. My catarrhal trouble seems very much better also, and, indeed, altogether my health never was so good. I am weighing some five pounds more than is usual for me, (and more than I ever weighed before.)

I can but hope that it may be the good fortune of many with like troubles, to fall in the way of the benefit of your skill, and knowing how great the fear of imposition is with those, who in time past, may like myself have suffered by it, and feeling a wish, sincerely at this time, to aid and commend you in establishing a high and deserved position amongst us in your profession, I beg, therefore, that you will not hesitate to refer to me, as it may be of use. I also inclose herewith, Professor Nott's reply to my letter of inquiries, which I deem highly creditable to you, and of great importance to others, as it has been to me. I will visit you again soon. In the meantime, believe me, Yours, very sincerely,

JOLIET, Ill., July 17, 1863. F. L. CAGWIN.

FROM REV. JOHN NOTT, D. D.,
PROFESSOR IN UNION COLLEGE, SCHENECTADY, NEW-YORK.

FONDA, N. Y., April 29, 1863.

F. L. Cagwin, Esq.:

DEAR SIR: I received your letter of April 23 today. I have had from infancy one very deaf ear, and always discharging more or less offensive matter. This year both ears became diseased, running very much, very offensive, producing the greatest debility of body and depression of spirits, and my hearing impaired in the highest degree. In such a condition, I placed myself under the care of Dr. Lighthill. He has fully restored me. I hear well; the dizziness and the discharge have been removed, and have not returned. The stopping of the running has given me the highest elasticity and vigor of body, and a flow of spirits, while my fears were that stopping the discharge would prove detrimental or dangerous.

I esteem, or rather have learned to esteem, Dr. Lighthill—for he was a stranger to me until I was his patient—as a gentleman and a man of science, in whom the highest confidence may be placed. Yours, very truly,

JOHN NOTT.

DELAVAN HOUSE, ALBANY, N. Y., March 7, 1863.

To Dr. C. B. Lighthill:

DEAR SIR: I take pleasure in certifying that you have effected a great deal of improvement in the hearing of my son, Marcus C. Roessle, who has, previous to your taking the case in hand, been quite deaf from the effects of Scarlatina. As I know of many other cases which you have cured and benefited, I have no hesitancy to recommend you to the public.

I remain yours, very truly,
THEOPHELUS ROESSLE,
Proprietor Delavan House, Albany, N. Y

From the Hon. Ira Fish, Patten, Maine.

DR. LIGHTHILL—*Dear Sir*: I send you a statement of my case, which you may use as you think [illegible]er. I have acquaintances in different parts of th[illegible], have served three years as Senator of Penobscot County, and three years as Representative, in all six years, in our State Legislature. My statement may benefit some of those afflicted with this disease.

For several years I have been afflicted with Catarrh. I have tried many prescriptions for it without receiving any benefit therefrom. I have taken your medicine about ten months, and it has cured me. I would recommend to those afflicted with this disorder to apply to you. I am confident, if they will strictly follow your directions, that a cure will be effected, however inveterate the case may be.

Respectfully yours,
IRA FISH.

Induced by the extensive sale and universal popularity of Hoofland's German Bitters, (purely vegetable,) hosts of ignorant Quacks and unscrupulous adventurers, have opened upon suffering humanity the flood-gates of Nostrums in the shape of poor whisky, vilely compounded with injurious drugs, and christened Tonics, Stomachics and Bitters.

Beware of the innumerable array of Alcoholic preparations in plethoric bottles and big-bellied kegs, under the modest appellation of Bitters, which instead of curing only aggravate disease, and leave the disappointed sufferer in despair.

Do you want something to strengthen you?
Do you want a good appetite?

From Rev. J. Newton Brown, D. D., Editor of the Encyclopedia of Religious Knowledge.

Although not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and effects, I yet know of no sufficient reasons why a man may not testify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.

I do this more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, of this City, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend Robert Shoemaker, Esq., for the removal of this prejudice by proper tests, and for encouragement to try them, when suffering from great and long continued debility. The use of three bottles of these Bitters, at the beginning of the present year, was followed by evident relief, and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regaining. I therefore thank God and my friend for directing me to the use of them. J. NEWTON BROWN.
PHILADELPHIA, June 23, 1861.

PARTICULAR NOTICE.

There are many preparations sold under the name of Bitters, put up in quart bottles, compounded of the cheapest whisky or common rum, costing from 20 to 40 cents per gallon, the taste disguised by Anise or Coriander Seed.

This class of Bitters has caused, and will continue to cause, as long as they can be sold, hundreds to die the death of the drunkard. By their use, the system is kept continually under the influence of alcoholic stimulants of the worst kind, the desire for Liquor is created and kept up, and the result is all the horrors attendant upon a drunkard's life and death.

For those who desire and will have a Liquor Bitters we publish the following receipt. Get one bottle Hoofland's German Bitters and mix with three quarts of good brandy or whisky, and the result will be a preparation that will far excel in medicinal virtues and true excellence any of the numerous Liquor Bitters in the market and will cost much less. You will have all the virtues of HOOFLAND'S BITTERS *in connection with a good article of Liquor, at a much less price than these inferior preparations will cost you.*

ATTENTION, SOLDIERS!
AND FRIENDS OF SOLDIERS.

We call the attention of all having relations or friends in the army to the fact that "Hoofland's German Bitters" will cure nine-tenths of the diseases induced by exposures and privations incident to camp life. In the lists published almost daily in the newspapers, on the arrival of the sick, it will be noticed that a very large proportion are suffering from debility. Every case of that kind can be readily cured by Hoofland's German Bitters. Diseases resulting from disorders of the digestive organs are speedily removed. We have no hesitation in stating, that if these Bitters were freely used among our soldiers, hundreds of lives might be saved that otherwise will be lost.

We call particular attention to the following remarkable and well-authenticated cure of one of the nation's heroes, whose life, to use his own language, "has been saved by the Bitters."

PHILADELPHIA, Aug. 23, 1863.

MESSRS. JONES & EVANS: Well, gentlemen, your Hoofland's German Bitters has saved my life. There is no mistake in this. It is vouched for by numbers of my comrades, some of whose names are appended, and who were fully cognizant of all the circumstances of my case. I am, and have been for the last four years, a member of Sherman's celebrated battery, and under the immediate command of Capt. R. B. Ayres. Through the exposure attendant upon my arduous duties, I was attacked in November last with inflammation of the lungs, and was for seventy-two days in the hospital. This was followed by great debility, heightened by an attack of dysentry. I was then removed from the White House, and sent to this City on board the steamer *State of Maine*, from which I landed on the 28th of June. Since that time I have been about as low as any one could be, and still retain a spark of vitality. For a week or more I was scarcely able to swallow anything, and if I *did* force a morsel down, it was immediately thrown up again.

I could not even keep a glass of water on my stomach. Life could not last under these circumstances, and accordingly the physicians who had been working faithfully, though unsuccessfully, to rescue me from the grasp of the dread Archer, frankly told me they could do no more for me, and advised me to see a clergyman, and to make such a disposition of my limited funds as best suited me. An acquaintance who visited me at the hospital, Mr. Frederick Steinbron, of Sixth, below Arch-street, advised me, as a forlorn hope, to try your Bitters, and kindly procured a bottle. From the time I commenced taking them the gloomy shadow of death receded, and I am now, thank God for it, getting better. Though I have taken but two bottles, I have gained ten pounds, and I feel sanguine of being permitted to rejoin my wife and daughter, from whom I have heard nothing for eighteen months; for, gentlemen, I am a loyal Virginian, from the vicinity of Front Royal. To your invaluable Bitters I owe the certainty of life which has taken the place of vague fears—to your Bitters will I owe the glorious privilege of again clasping to my bosom those who are dearest to me in life.

Very truly yours, ISAAC MALONE.

We fully concur in the truth of the above statement, as we had despaired of seeing our comrade, Mr. Malone, restored to health.
